The information and specifications included in this publication were in effect at the time of approval for printing. Honda Motor Co., Ltd., reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation.

Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

┌───┐
│ ⚠ **WARNING**   │
├───┤
│ Using the navigation system while driving can take your   │
│ attention away from the road, causing a crash in which you   │
│ could be seriously injured or killed.   │
│   │
│ Only operate system controls when the conditions permit you   │
│ to safely do so.   │
└───┘

Avoid focusing on the screen or manually operating the system controls while driving.

Enter information before you begin driving or when stopped. As you drive, listen to the audible instructions and use voice commands when possible. Pull to the side of the road if you need more time to look at the screen or operate the controls.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.
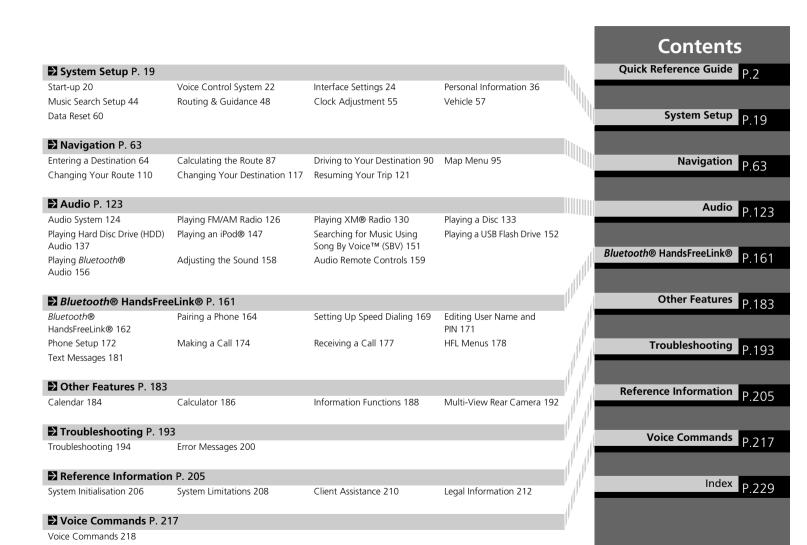

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgement and obey traffic laws.

NOTICE

This vehicle's navigation display, if so equipped, includes mercury-containing components. Upon removal, please reuse, recycle, or dispose of as hazardous waste.

Clean the screen with a soft, damp cloth. You may use a mild cleaner intended for use on navigation screens.

Contents

Overview—Functions at a Glance

Navigation

You can select any place/landmark as a destination by using voice control or the Interface Dial. The navigation system gives you turn-by-turn driving directions to your destination.

Store home addresses ➜ P. 41
Register **2** home addresses.

Store contacts ➜ P. 37
Store up to **200** contacts in address book.

Enter destination ➜ P. 64
Select your destination using **12** methods.

Select route ➜ P. 88
Set route preferences and select one of **3** routes.

Track route ➜ P. 90
Follow your route in real-time with voice guidance.

Avoid certain areas ➜ P. 111
Set streets and areas to detour around.

Add waypoints ➜ P. 112
Add up to **4** "pit stops" along your route.

Audio

The advanced audio system provides clear, well-defined sound and makes the most of your music.
Enjoy listening to a variety of audio sources, such as:

FM/AM Radio P. 126   **iPod®** P. 147

XM® Radio P. 130   **USB Flash Drive** P. 152

Compact Disc P. 133   **Bluetooth® Audio** P. 156

Hard Disk Drive (HDD) P. 137

Voice Control P. 22

Use voice commands to control the system while driving. You can operate all key functions of the navigation, audio, *Bluetooth*® HandsFreeLink® and climate control systems.

Bluetooth® HandsFreeLink® P. 162

Pair a compatible cell phone to receive incoming and make outgoing calls. You can operate the phone features without ever taking your hands off the wheel.

Text Messages P. 181

Receive text messages on the navigation screen from a compatible device and hear them read aloud. Reply to them using preloaded messages.
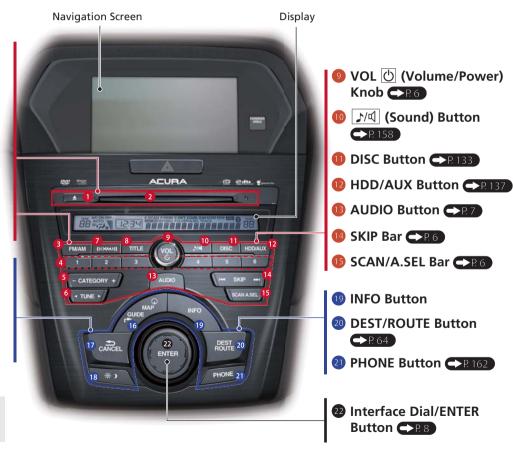

Other Features

Multi-View Rear Camera P. 192

Helps you check for obstacles around the rear of your vehicle on the navigation screen when reversing.

How to Enter Information

You can enter information (e.g., city names, street names, personal names, and business names comprising letters, numbers, and symbols) when prompted on input screens by two different methods.

Using Voice Control

When you see ⓦ in this manual, voice commands are available for that feature.

● Say the letter, number, or symbol (e.g., say ⓦ *"A"*).

● Use spelling assist (e.g., say ⓦ *"Alpha"* to enter the letter "A" or ⓦ *"Hyphen"* to enter a hyphen).

● The system beeps if you say an unavailable (grayed out) letter or number.

● If a voice command is not recognized, a list is displayed with possible options.

On list screens:

● Say the number of the list item (e.g., say ⓦ *"Five"* to select item 5).

● Say ⓦ *"Up"* or ⓦ *"Previous"* to scroll up one page.

● Say ⓦ *"Down"* or ⓦ *"Next"* to scroll down one page.

Using the Interface Dial
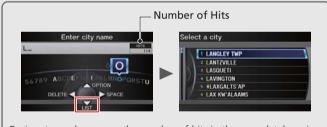

Rotate ⊙ to highlight a character.

The # (pound symbol) or @ (at symbol) displays symbols.

● Move △ to select **OPTION** to display accented and upper/lower case characters.

Press ⊙ to enter the highlighted character.

● Move ▷ to select **SPACE** to enter a space character.

● Move ◁ to select **DELETE** to remove the last entered character.

Number of Hits

On input search screens, the number of hits in the map database is displayed. Move ▽ to select **LIST** to display a list of possible entries.

On list screens:

Scrolling through lists or tabs is limited while the vehicle is moving.

Certain screen functions are limited or inoperable while the vehicle is moving. For these functions, use available voice commands or pull over to proceed.

Navigation—Home Addresses and Going Home

The "Home" feature automatically routes you to your home address from any location simply by selecting Go Home 1 or 2, or saying ⊮⅔ *"Go Home."* You can store two home addresses as **Home Address 1** and **Home Address 2**.

Storing Your Home Address

❶ Press the INFO button.

❷ Rotate ⌕ to select **Set up**. Press ⌕.

❸ Rotate ⌕ to select **Personal Information**. Press ⌕.

❹ Rotate ⌕ to select **Home Address 1**. Press ⌕.

❺ Rotate ⌕ to select **Edit Name**. Press ⌕.

❻ Enter a name.

❼ Rotate ⌕ to select **Edit Address**. Press ⌕.

❽ Rotate ⌕ to select **Address**. Press ⌕.

❾ Enter an address.

❿ Rotate ⌕ to select **Edit Phone No**. Press ⌕.

⓫ Enter a phone number.

⓬ Move ⌕ to select **OK**.

Going Home

❶ Press the DEST/ROUTE button.

❷ Rotate ⌕ to select **Go Home 1**. Press ⌕.

Alternatively, you can say ⊮⅔ *"Go Home"* from any screen. Your home address is displayed on the Calculate Route screen.

❸ Rotate ⌕ to select **OK**. Press ⌕.

● The following voice commands are available: say ⊮⅔ *"Go Home,"* ⊮⅔ *"Go Home 1,"* ⊮⅔ *"Go Home 2."*

● If you have two home addresses stored, saying ⊮⅔ *"Go Home"* will select **Home Address 1**.

Navigation—Entering a Destination

Enter your destination using one of several methods, then follow route guidance on the map or guidance screen to your destination. You can also perform these steps using 🗣 voice control.

❶ Press the DEST/ROUTE button.

❷ Rotate ⌾ to select **Address**. Press ⌵.

❸ Rotate ⌾ to select **Street**. Press ⌵.

❹ Enter the name of your destination street.

❺ Rotate ⌾ to select your destination street from the list. Press ⌵.
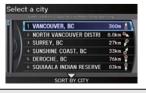

❻ Enter the street number. Move ⇟ to select **OK** when finished.

❼ If there is more than one city with the specified street, a list of cities is displayed. Rotate ⌾ to select the desired city from the list. Press ⌵.

❽ Rotate ⌾ to select **OK**. Press ⌵. Route guidance to the destination begins.

● **View Routes**: Choose one of three routes.

● **Route Pref.**: Choose MAX or MIN for the three settings.

Navigation—Changing Route or Destination

You can alter your route by adding waypoints to visit, adding streets to avoid, or changing your destination during route guidance.

Adding a Waypoint ("Pit Stop")

You can add up to four waypoints along your route.

❶ Press the DEST/ROUTE button.
❷ Rotate ⊙ to select **Waypoint**. Press ⊜.

❸ Rotate ⊙ to select location and search method. Press ⊜.

Add Waypoint
- Select Area for Searching Waypoint
- SEARCH AROUND ⊙ CURRENT STREET
- WAYPOINT A
- WAYPOINT B
- WAYPOINT C
- DESTINATION

● **SEARCH AROUND**: Search around a location.
● **SEARCH ALONG**: Search between two locations.

❹ Select the icon category and location to add to the Destination List when prompted.
❺ Move ⧨ to select **OK**.

Changing Your Destination

There are four methods you can use to specify a new destination during route guidance.

● Say 🎙️ *"Find Nearest…"*
Searches for the nearest place/landmark on the map screen (e.g., 🎙️ *"Find nearest gas station"*).

● Say 🎙️ *"Go Home"*
Routes to your home address.

● Selecting an icon on the map
Scroll the map to position the cursor over a place/landmark icon or a new area on the map. Press ⊜ twice.

● Entering a new destination
Press the DEST/ROUTE button. Move ⊙▷ to select **Dest.MENU1/2** and enter a new destination.

Canceling Your Route

❶ Press the DEST/ROUTE button.

❷ Rotate ⊙ to select **Cancel Route**. Press ⊜.

DEST | Route ▶ Dest. MENU1 \ Dest. MENU2
Change Route by
- Cancel Route
- Change Route Pref.
- Detour

- Find Nearest…
- Cancel Route

Troubleshooting

Q Why does the vehicle position icon on the map "lag" a short distance behind my actual position, especially at intersections?

A This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal.

Q Why does the "time to destination" display sometimes increase even though I am getting closer to my destination?

A The "time to destination" is based on your actual road speed and traffic conditions to give you a better estimate of arrival time.

Q Why does my clock frequently change the time forward and backward by one hour?

A The clock setting is automatically updated based on your GPS location. If you normally drive between two time zones, the clock may keep adjusting the time. You can turn this feature off.
2 **Clock Adjustment** P. 55

Q How do I specify a destination when an entered city or street could not be found?

A Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered.

Q How do I turn on the navigation system voice guidance?

A
1. Press the INFO button. Rotate ⟲ to select **Set up** and press ⟱. Check that **Volume** is not set to **OFF**.
2. Move ◎▷ to select **Other**, rotate ⟲ to select **Basic Settings**, and press ⟱. Set **Voice Recognition Tutor** to **ON** if you want the system to provide confirmations and system prompts.

Q My battery was disconnected or went dead, and the navigation system is asking for a code. Where do I find it?

A In most cases, you do not need to enter a code. Simply press and hold the VOL ⏻ (Volume/Power) button for two seconds; the system should reactivate.
2 **System Initialisation** P. 206

How to Use This Manual

This section explains different methods on how you can easily find information in this manual.
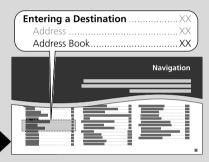

Searching the Table of Contents

Two types of Tables of Contents help you find your desired information.

Navigation

Contents

More Detailed Contents

Table of Contents

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Address Book). Then, go to that chapter to view a more specific table of contents.

Navigation

Chapter Contents

This more detailed table of contents shows you exactly what information is listed by section and title.
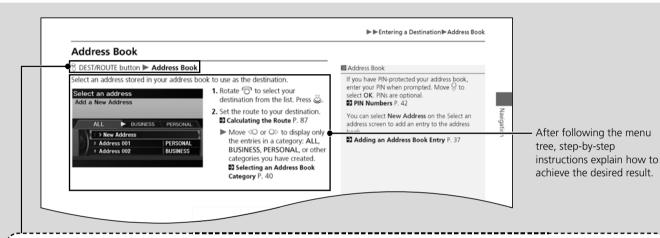

Searching the Index

Menu items displayed on the navigation screen (e.g., Address Book) can be found individually in the Index.

Address Book

DEST   Dest. MENU1 ▶ Dest. MENU2
Enter destination by
Address   Place Name
Address Book   Place Category
Previous Destinations   Go Home1

Index

Navigation Screen

Index

The Index consists of main terms and sub-entries. The sub-entries help you get to the desired page depending on what you are looking for.

Address Book

DEST/ROUTE button ▶ **Address Book**

Select an address stored in your address book to use as the destination.

Select an address
Add a New Address

| ALL | ▶ | BUSINESS | PERSONAL |

1 > New Address
2 Address 001   PERSONAL
3 Address 002   BUSINESS

1. Rotate ⌖ to select your destination from the list. Press 👌.
2. Set the route to your destination.
 ▷ **Calculating the Route** P. 87
 ▶ Move ◁○ or ○▷ to display only the entries in a category: ALL, BUSINESS, PERSONAL, or other categories you have created.
 ▷ **Selecting an Address Book Category** P. 40

▷ Address Book
If you have PIN-protected your address book, enter your PIN when prompted. Move ♀ to select OK. PINs are optional.
▷ **PIN Numbers** P. 42

You can select **New Address** on the Select an address screen to add an entry to the address book.
▷ **Adding an Address Book Entry** P. 37

After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

NOTE:
All menu options can also be activated with voice commands.

DEST/ROUTE button   ▶   **Address Book**

Press the hard button on the system control panel.

Press the DEST/ROUTE button.

Select the menu option with the Interface Dial.

Rotate ⌖ to select Address Book. Press 👌.

Sample pages and images in this section may differ from the actual ones.

NOTE

System Setup

This section describes the start-up procedure and the navigation and setup functions.

The navigation system starts automatically when you set the power mode to ACCESSORY or ON. At start-up, the following Confirmation screen is displayed.

1. Move ⊙▷ to select **CHANGE LANGUAGE**.

▶ If you do not need to change the system language, proceed to step 3.

2. Rotate ⟲ to change the system language. Press ⟱.

3. Press ⟱ to select **OK**.

▶ Your current position is displayed on the map screen.

▶ If you have set any calendar event reminders, they are displayed. Proceed to step 4.

If the navigation system loses power at any time, you may need to press and hold the VOL ⏻ (Volume/Power) button for more than two seconds, or you may be prompted for the five-digit security code.

You can change the system language at any time.

"OK" on the Confirmation screen cannot be selected by using a voice command. If you do not press ⟱ within 30 seconds, the screen goes blank (or displays your wallpaper screen and you cannot use voice commands). Press any navigation or voice control button to continue.

Reminder
Jan. 1, 2012   ⊞Others
Anna's birthday
I have to buy toys
and send an email

Remind Later   OK

4. Rotate ⟳ to select an option.
Press ⟱.

▶ Your current position is
displayed on the map screen.

The following options are available:

- **Remind Later:** Displays the reminder again next time you start the vehicle.
- **OK:** Turns the reminder off.

■Limitations for Manual Operation

Disabled option

DEST
Dest. MENU1 ▶ Dest. MENU2
Enter destination by
Address   Place Name
Address Book   Place Category
Previous Destinations   Go Home1
All options available using voice commands

Certain manual functions are disabled
or inoperable while the vehicle is in
motion. You cannot select a grayed-
out option until the vehicle is stopped.

Voice commands are still operable
while the vehicle is in motion.

Voice Control System

Your vehicle has a voice control system that allows hands-free operation of most of the navigation system functions. You can also control the audio and climate control system, and make and receive phone calls using *Bluetooth*® HandsFreeLink®.

The voice control system uses the ⓦ (Talk) and ⮌ (Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

A "Voice Info" feature provides a tutorial that explains how to use the voice control system.
2 **Voice Help** P. 5

Command Input

If the system does not understand a command or you wait too long to give a command, the system asks you to repeat the command.

When you give a command, the system generally either repeats the command as a confirmation or asks you for further information. If you do not wish to hear this feedback, you can turn it off. However, listening to the feedback will help familiarise you with the way the system expects commands to be phrased.
2 **Basic Settings** P. 26

If the system cannot perform a command or the command is not appropriate for the screen you are on, the system beeps.

On character input screens, a list of possible characters is displayed if the system does not recognize your command.

You can find out which voice commands are available for a particular screen using the ⓦ Help command. The system will display and read the list of available commands to you.

≫ ⓦ (Talk) Button

When you press the ⓦ (Talk) button, a helpful prompt asks what you would like to do. Press and release the ⓦ (Talk) button again to bypass this prompt and give a command.

≫ Command Input

The audio system is muted while using the voice control system.

Voice Recognition

To achieve optimum voice recognition when using either the navigation voice control system or *Bluetooth*® HandsFreeLink®:

- Make sure the correct screen is displayed for the voice command that you are using.
  ⊇**Voice Commands** P. 218

- Close the windows and moonroof.

- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.

- Speak clearly in a clear, natural speaking voice without pausing between words.

- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

- Refer to the Voice Info tutorial.
  ⊇**Voice Help** P. 5

▷Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

System Setup

Interface Settings

Display and Volume Settings

ℍ INFO button ▶ **Set up**

Use the Main Setup screen to adjust the display and volume.

■Switching Display Mode Manually

Set the screen brightness separately for Day and Night modes. Press the ☀️🌙 (Display mode) button to cycle through the display modes (Day to Night to Off).

Brightness

1. Press the ☀️🌙 button.

   ▶ The Brightness bar is displayed for a few seconds.

   ▶ Rotate 🔘 to adjust the brightness. Press 🔘.

2. Press the ☀️🌙 button again.

   ▶ Repeat the procedure to switch the display modes.

A visual guide helps you see the difference between Day and Night modes.
2 Day or Night Mode P. 11

Recommended Settings
- Select mid-range for the dash illumination.
- Select **WHITE** for the map Day display and **BLACK** for the map Night display.

System Setup

Illumination control	Priority	Operation
☀ button	1	Selects Day, Night, or Off display mode. This button has the highest priority and overrides all other display control adjustments listed below. **Remember**: Once you press this button, you assume full manual control of the display mode until the power mode is set to VEHICLE OFF (LOCK).
Sunlight sensor (see your Owner's Manual for location)	2	If the sunlight sensor detects daylight and the headlights are turned on, the system automatically overrides the Night display and displays the Day display mode. **Remember**: If desired, use the ☀ button to override this automatic choice.
Dash illumination adjustment buttons (see your Owner's Manual for location)	3	When headlights are turned on, and you wish to have the Day display mode, adjust the illumination to the full brightness setting (beeps). **Remember**: Adjust the dash brightness back to mid-range to allow auto switching by sensing the headlights are on or off.
Headlights (Auto/On/Off)	4	When turned on, the display changes to Night display mode. The previous three controls listed above can "cancel" this function. **Remember**: Use the ☀ button, or adjust the dash illumination to full brightness, to set the display to your desired choice.
Screen colour choice	N/A	The user can select the colour of the screen that will be displayed for the Day and Night display modes described above. **Remember**: For best contrast, ensure that the map colour is white for Day and black for Night.

Language

⅄ INFO button ▶ **Set up** ▶ **Other** ▶ **Language**

Set the system language used on all screens. You can choose from three languages: **English**, **Français** (French), **Español** (Spanish).

Rotate 🖑 to select the system language. Press 🖐.

≫Language

Voice confirmation of cities and streets only occurs when **English** is the system language.

When **Français** or **Español** is selected, some messages continue to be displayed in English.

2. Enter a name and select an icon when prompted.

   ▶ The created category is displayed in the list of categories.

■ Deleting or Editing a Category

1. Move ⟳▷ to select **Edit**.

2. Rotate ⟳ to select **Delete** or **Edit Category**. Press ⟱.

3. Delete an existing category, or change the name and icon.

   ▶ The selected category to delete is indicated with a trash icon. Move ⟳ to select **OK**.

≫ Selecting an Address Book Category

You can have up to 100 categories (including "UNFILED").

If you delete a category that is used by other addresses, the category type for those addresses changes to "UNFILED."

Category Icons
The following icons can be selected for a category:

System Setup

■Deleting an Address Book Entry

🔧 INFO button ▶ **Set up** ▶ **Personal Information** ▶ **Address Book**

1. Rotate 🔘 to select the address to delete. Press 🔘.
2. Rotate 🔘 to select **Delete**. Press 🔘.
3. Rotate 🔘 to select **Yes**. Press 🔘 to delete the address.

Home Addresses

🔧 INFO button ▶ **Set up** ▶ **Personal Information** ▶ **Home Address 1** or **Home Address 2**

Set two home addresses that you frequently use.

1. Edit the name, address, and phone number the same way as an address in the address book.
   ↪ **Adding an Address Book Entry** P. 37
2. Move 🔽 to select **OK**.

>>Deleting an Address Book Entry

When you transfer the vehicle to a third party, delete all address book entries.

>>Home Addresses

If you have PIN-protected your home addresses, enter your PIN when prompted. Move 🔽 to select **OK**. PINs are optional.
↪ **PIN Numbers** P. 42

If your home street is not in the system database, park on the nearest verified street to your home. When entering the "Address" field, rotate 🔘 to select **Current Position** to use your current location as the home address and press 🔘.

You can delete a home address if necessary. Rotate 🔘 to select **Delete**. Press 🔘. Rotate 🔘 to select **Yes**. Press 🔘.

When you transfer the vehicle to a third party, delete all home addresses.

The home icon is shown on the map screen on the 80 and 200 m scales.

PIN Numbers

🕐 INFO button ▶ **Set up** ▶ **Personal Information** ▶ **PIN Number**

Set a four-digit PIN for protecting personal addresses and your home addresses. Once you set a PIN, you are prompted to enter it whenever you access a personal address or a home address.

1. Rotate ⟲ to select the PIN to create. Press ⟱.

2. Rotate ⟲ to select a digit to enter. Press ⟱. Repeat to enter a new four-digit PIN.

3. Re-enter the new PIN, when prompted, to confirm the number you just entered.

▶ If you have not entered the same number both times, an "INCORRECT PIN" message is displayed. Enter your PIN again.

≫PIN Numbers

PIN
Personal Identification Number (PIN) is a password used to access personal data.

PINs are optional. If you choose to use a PIN, keep a note of the number in a secure location. If you forget your PIN, a dealer will have to reset the navigation system and all of your stored information will be erased. The factory default is no PIN.

If you want to stop using a PIN, move ⟱ to select **DO NOT USE PIN**.

Previous Destinations

🙋 INFO button ▶ **Set up** ▶ **Personal Information** ▶ **Previous Destinations**

The navigation system maintains a list of your previously routed destinations as a shortcut for entering the same destination in the future. You can delete some or all of your previous destinations from the list.

1. Rotate 🎛 to select the destination to delete. Press 🔘.

   ▶ Repeat the procedure as necessary.

   ▶ Items to be deleted are indicated with a trash icon.

Trash icon

2. Move 🎚 to select **OK** to delete the selected destinations.

>> Previous Destinations

Up to 50 destinations can be stored.

To cancel the selection of a previous destination, rotate 🎛 to highlight the destination again. Press 🔘 to de-select it.

System Setup

Music Search Setup

Ω AUDIO button (in iPod® mode) ▶ **AUDIO MENU** ▶ **Music Search Setup**

Use this feature to set up the music search abilities when using Song By Voice™ (SBV) commands.

Rotate $\circledcirc$ to select an item. Press $\circledcirc$.

The following items are available:

- Song By Voice: Turns the feature on or off.
  ≥ **Song By Voice™ (SBV)** P. 45

- Phonetic Modification: Changes the phonetic (song name, artist name, etc.) so that they are more easily recognized through voice commands.
  ≥ **Phonetic Modification** P. 46

≫Music Search Setup

You can also display the Music Search Setup items in the DISC (music CD) or HDD mode. Select **HDD Setup** in **AUDIO MENU**.

This feature is only available when the system language is set to **English**.

Song By Voice™ (SBV)

♂ AUDIO button (in iPod® mode) ▶ **AUDIO MENU** ▶ **Music Search Setup** ▶
  Song By Voice

Use SBV to search for and play music from your HDD or iPod® using voice
commands. Use this setting to enable SBV.

Rotate ⟳ to select an option. Press
⟱.

The following options are available:

• **ON** (factory default): Song By Voice commands are available.
  ▷**Searching for Music Using Song By Voice™ (SBV)** P. 151

• **OFF**: Disable the feature.

System Setup

▷Song By Voice™ (SBV)

You can also display the Music Search Setup
items in the DISC (music CD) or HDD mode.
Select **HDD Setup** in **AUDIO MENU**.

This feature is only available when the system
language is set to **English**.

Phonetic Modification

 AUDIO button (in iPod® mode) ▶ **AUDIO MENU** ▶ **Music Search Setup** ▶
Phonetic Modification

Add phonetic modifications of difficult or foreign words so that it is easier for SBV to
recognize artists, songs, albums, and composers in voice commands when searching
for music on the HDD or iPod®.

Phonetic Modification List

1 <New Modification>

OK

1. Rotate to select **New Modification**. Press .

New Modification

Modifying the phonetics will apply to
all artists, songs, albums, and
composers on the HDD and connected
iPod only.

HDD   **iPod**

2. Rotate to select the media source (**HDD** or **iPod**). Press .

≫ Phonetic Modification

You can also display the Music Search Setup
items in the DISC (music CD) or HDD mode.
Select **HDD Setup** in **AUDIO MENU**.

Phonetic Modification is greyed out when
Song By Voice is set to **OFF**.

This feature is only available when the system
language is set to **English**.

You can store up to 2000 phonetic modification
items.

SBV may not be able to recognize languages
other than English. The Phonetic Modification
feature is helpful in the following situations:

• The music information cannot be identified
using Gracenote®.

• The phonetics are in languages other than
English.

System Setup

Select an item to modify

Artist   Album

Song

3. Rotate ⟳ to select the item to modify (e.g., **Artist**). Press ♨.

4. Rotate ⟳ to select an entry (e.g., "No Name"). Press ♨.

Phonetic Modification

NO NAME

Play   Edit
Cancel   OK

5. Rotate ⟳ to select **Edit**. Press ♨.

▶ Rotate ⟳ to select **Play** to listen to the phonetic modification. Press ♨.

▶ Rotate ⟳ to select **OK** and press ♨ when finished.

6. Enter the phonetic spelling you wish to use (e.g., "Artist A") when prompted.

7. Move ⟱ to select **OK** to exit.

Phonetic Modification List

| 1 | <New Modification> | |
| 2 | NO NAME | ARTIST A |

▼
OK

▶ The artist "No Name" is phonetically modified to "Artist A." When in SBV mode, you can use the voice command 🎙️ *"Play Artist 'Artist A'"* to play songs by the artist "No Name."

Routing & Guidance

Choose various settings that determine the navigation system functionality during route guidance.

Rotate ⟳ to select an item. Press ⬇.

The following items are available:

- **Rerouting**: Sets the route recalculation to automatic or manual mode.

- **Unverified Area Routing**: Sets whether you use the route guidance in unverified areas.

- **Edit Avoid Area**: Specifies areas to avoid when calculating a route.

- **Edit Waypoint Search Area**: Sets the distance from the route to find waypoints.

- **Guidance Mode**: Sets whether to display only the map screen or a split map-guidance screen.

Rerouting

Set whether route recalculation occurs automatically or manually during route guidance.

Rotate ⟳ to select an option. Press ⟱.

The following options are available:

• AUTOMATIC (factory default): The system calculates a new route automatically when you deviate from the route. It is strongly recommended that you leave the system set to Automatic.
• MANUAL: Disables route recalculation. The system beeps and "Off Route" is displayed when you deviate from the route.

>> Rerouting

If you live in an area with poor mapping, you may wish to set **Rerouting** to **MANUAL** to avoid constant recalculation. You will need to select **Recalculation** manually to make the system recalculate your new route.

System Setup

System Setup

Unverified Area Routing

 INFO button ▶ **Set up** ▶ **Other** ▶ **Routing & Guidance** ▶ **Unverified Area Routing**

Receive turn-by-turn map and voice guidance in unverified areas.

Routing & Guidance
1 Rerouting
  AUTOMATIC   MANUAL
2 **Unverified Area Routing**
  ON   OFF
3 Edit Avoid Area

Rotate to select **ON** or **OFF**. Press .

Differences	OFF (factory default)	ON
ON or OFF?	The driver wishes to manually navigate using the navigation map and choose the streets that lead to the destination.	The driver chooses to let the navigation system suggest possible routing, knowing that the guidance may not be accurate.
Route calculation	Route is usually longer, using verified roads whenever possible.	Route is shorter, but uses unverified (purple) streets that may not be accurate.
Route line	A blue dotted vector line is displayed on the map that continually points to your destination.	A blue-pink dashed route line highlights suggested unverified streets on the map while travelling to your destination.
Cautionary messages	Cautionary pop-up screens and voice announcements remind you to obey all traffic restrictions.	Cautionary pop-up screens and voice announcements remind you to exercise additional caution and obey all traffic restrictions.

 Unverified Area Routing

Unverified roads are found in rural areas, and typically include residential streets away from the centre of a town. They may not be accurate, and can contain errors in location, naming, and address range.
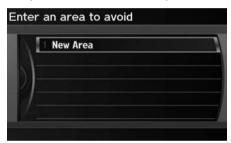

Unverified roads are shown only when viewing the map in the 80, 200 or 400 m map scales.

Vector line (dotted)

Blue-pink route line

50

Differences	OFF (factory default)	ON
Guidance (map/voice)	There is no turn-by-turn map or voice guidance.	Voice guidance commands end with the phrase "if possible" to remind you to verify all traffic restrictions.
Directions list	A direction list is typically not available. However, depending on your route, directions are provided to help you reach the first available verified road.	A direction list is provided showing street names and turn symbols in pink.

System Setup

51

Edit Avoid Area

🖑 INFO button ▶ **Set up** ▶ **Other** ▶ **Routing & Guidance** ▶ **Edit Avoid Area**

Specify up to five areas to avoid (e.g., road construction, closures), if possible, when the system calculates routes to your destination.

1. Rotate ⊙ to select **New Area** or an existing area to edit. Press 👇.

2. Rotate ⊙ to select **Edit Name** to label the area to avoid. Press 👇.

3. Enter a name or title. Move 🖐 to select **OK**.

4. Rotate ⊙ to select **Edit Area** to define the area to avoid. Press 👇.

The following options are available (after an area is set):

• **View Area Map**: Displays the selected avoid area on the map.
• **Delete**: Deletes the selected avoid area.

※ Edit Avoid Area

The maximum size of an "avoid area" is 800 square metre.

If your selected area contains a highway, you are asked "Do you want to avoid highways?" Answering "No" allows you to use a route through an avoid area on a highway without any pop-up messages.

You can select areas to avoid, however you cannot select roads or areas that you want the system to use for routing.

You can enter up to 25 characters for the name.

The following options are available:

- Address: Specify the general area by entering an address.
  ≥Address P. 66

- Map Input: Specify the general area by map input.
  ≥Map Input P. 85

Cursor

Avoid area

5. Rotate ⊙ to select a method for specifying the area. Press ⨀.

6. If you select Map Input, scroll the map to position the cursor over your desired start point, adjusting the map scale as necessary. Press ⨀ to mark the start point.

▶ To redo the area selection, press the CANCEL button.

7. Scroll the map to "draw" the area. Press ⨀ to mark the end point.

8. Press ⨀ to select OK.

▶ The area you specify is displayed in the list of areas to avoid.

≫ Edit Avoid Area

You can change the map scale to 80, 200, or 400 m.

53

Edit Waypoint Search Area

Select the distance from your highlighted route line (on either side of your route) that the system will search for a waypoint.

⊵ **Adding Waypoints** P. 112

You can specify a different search distance for highways and surface streets.

1. Rotate ⟳ to select an item. Press ⟱.
2. Rotate ⟳ to select a search distance. Press ⟱.

The following items are available:

- **On Highways**: 1.6, 3, 8, or 16 km can be set. Factory default is 3 km.
- **On Surface Street**: 0.8, 1.6, 3, or 8 km can be set. Factory default is 0.8 km.

» Edit Waypoint Search Area

The search distance does not affect the search range used for the Find Nearest voice commands (e.g., say ⊯ *"Find nearest gas station"*).

Clock Adjustment

$\bigbegin{cases}\end{cases}$ INFO button ▶ **Set up** ▶ **Other** ▶ **Clock Adjustment**

Set the automatic adjustment of the system clock for daylight saving and international time zones.

Rotate 🔘 to select an item. Press 🔘.

The following items are available:

- **Auto Daylight**: The navigation system automatically adjusts the clock ("spring ahead" or "fall back" by one hour) when a daylight saving time change occurs.
  ON (factory default): Adjusts the clock automatically.
  OFF: Disables the feature.
- **Auto Time Zone**: The navigation system automatically adjusts the clock when driving through different time zones.
  ON (factory default): Adjusts the clock automatically.
  OFF: Disables the feature.
- **ADJUST TIME**: Adjust the current time manually.
  ≥ **Adjust Time** P. 56
- **Reset**: Reset the clock settings to the factory default.
  ≥ **Resetting the Clock Settings** P. 56

Auto Daylight
This function is not activated in areas that have not adopted daylight saving time, even if you have set **Auto Daylight** to **ON**.

Auto Time Zone
If you live and work in two different time zones, you may want to turn **Auto Time Zone** to **OFF**. When driving near a time zone boundary, the displayed time zone may fluctuate between the two zone times.

Adjust Time

Adjust the current time (hours and minutes).

1. Move ◁○ or ○▷ to select HOUR or MINUTE.
2. Rotate 🗘 to adjust the value.
3. Move ▽ to select **OK**.

Resetting the Clock Settings

Reset the **Auto Daylight** and **Auto Time Zone** settings to the factory defaults.

System Setup

56

Vehicle

Set the off-road tracking feature and correct the vehicle position displayed on the map.

Rotate ⟲ to select an item. Press ⟱.

The following items are available:

- **Off-road Tracking**: Set whether to display the tracking dots on the map.
  ▶ **Off-road Tracking** P. 58

- **Correct Vehicle Position**: Adjust the position of the vehicle on the map.
  ▶ **Correct Vehicle Position** P. 59

Off-road Tracking

🎙 INFO button ▶ **Set up** ▶ **Other** ▶ **Vehicle** ▶ **Off-road Tracking**

The navigation system can be set to display white off-road tracking dots ("breadcrumbs") on the map screen whenever you drive into an area approximately 800 m away from a mapped road.

Rotate ⟳ to select an option. Press ⊛.

The following options are available:

- **ON** (factory default): The system displays the white tracking dots.
  ⤷ **Driving Off-road** P. 93

- **OFF**: Disables the feature.

≫Off-road Tracking

To clear existing breadcrumbs, set **Off-road Tracking** to **OFF**, exit the Setup screen, and then set **Off-road Tracking** to **ON** again.
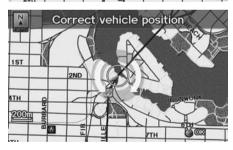

Correct Vehicle Position

🖐 INFO button ▶ **Set up** ▶ **Other** ▶ **Vehicle** ▶ **Correct Vehicle Position**

Manually adjust the current position of the vehicle as displayed on the map screen if the position appears to be incorrect.

1. Put the vehicle in Park.

2. Rotate ⟳ to select **Correct Vehicle Position**. Press 👆.

3. Scroll the map to position the arrowhead at your correct position. Press 👆.

4. Rotate ⟳ to position the arrowhead in the correct direction the vehicle is facing.

5. Press 👆 to select **OK**.

>> Correct Vehicle Position

An apparent position error can occur where buildings, tunnels, and other objects block or reflect the GPS signals, forcing the system to use "dead reckoning" to determine your location and direction.

Using this function to adjust vehicle position is not recommended. When the system reacquires a GPS signal, it will automatically place the vehicle in the correct location.
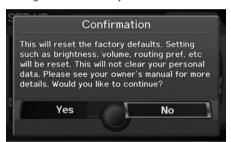

If you continually have to adjust the vehicle position, you may have problems with the GPS reception or there may be database errors.
2 **System Limitations** P. 208

System Setup

Data Reset

Reset Factory Default Settings

 INFO button ▶ **Set up** ▶ **Other** ▶ **Reset Factory Default**

Reset all the settings on the Setup screens and multi-view rear camera brightness settings to their factory default.

Rotate to select **Yes**. Press to reset the settings.

When you transfer the vehicle to a third party, reset all settings to default and delete all personal data.
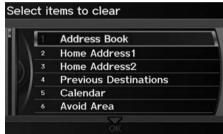

The following settings are reset:
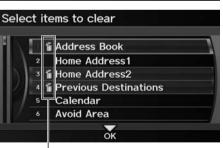

• Brightness, Contrast, Black Level, Volume, Interface Dial Feedback, Brightness (multi-view rear camera)

• Basic Settings: Units, Voice Recognition Tutor, Display Voice Command Tips, Verbal Reminder

• Routing & Guidance: Rerouting, Unverified Area Routing, Edit Waypoint Search Area, Guidance Mode

• Clock Adjustment: Auto Daylight, Auto Time Zone, Time

• Vehicle: Off-road Tracking

• Colour: Map Colour, Menu Colour

• Route Preference

Clear Personal Data

ℹ INFO button ▶ **Set up** ▶ **Other** ▶ **Clear Personal Data**

Delete uploaded data, calendar entries, address book, or stored destinations, or reset other settings to their factory defaults.

![Select items to clear screen showing Address Book, Home Address1, Home Address2, Previous Destinations, Calendar, Avoid Area]

![Select items to clear screen with trash icons]

Trash icon

1. Rotate ⌾ to select an item. Press ⌄.
   ▶ Repeat the procedure to delete other items.
   ▶ Items to be deleted are indicated with a trash icon.

2. Move ⌾ to select **OK**.
3. Rotate ⌾ to select **Yes**. Press ⌄ to delete the data.

>> Clear Personal Data

When you transfer the vehicle to a third party, reset all settings to default and delete all personal data.

The following items can be deleted:

- Address book
- Home address 1 and 2
- Previous destinations
- Calendar entries
- Avoid areas
- Music on HDD
- Music search phonetics
- Cellular phone information (speed dials, voice tags, and user PIN)
- Wallpapers Setting

When the Address Book is deleted, all contents (except the Categories) are deleted.

To delete all stored personal phone information, select **Clear Cellular Phone Information** in the Phone Setup screen.

If you have PIN-protected your address books or home addresses, enter your PIN when prompted. Move ⌾ to select **OK**. PINs are optional.
>> **PIN Numbers** P. 42

5. Rotate ⚲ to select **Set as Dest.** Press ⚲.

▷ Coordinate

Latitude and longitude must be entered up to the seconds' value.

A yellow box (shown at scales above 400 m) denotes the area that can be viewed when you press ⚲ on the current map.

Information icons are displayed at scales from 1.6 km to 400 m. Place/landmark icons are displayed at 200 m or less. Roads are displayed at 400 m or less.

If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.

Navigation

Intersection

Select the intersection of two streets as the destination. The state or province for your current location is displayed at the top of the screen (e.g., British Columbia).

1. Rotate $\odot$ to select the intersection search method. Press $\boxtimes$.
2. Set the route to your destination. 2**Calculating the Route** P. 87

The following options are available:

- **Street**: Selects the two intersecting streets. The city or cities that the streets are located in are displayed.
  2**Selecting a Street** P. 69
- **City**: Selects the city where the intersection is located. You are prompted to enter the name of the two intersecting streets.
  2**Selecting a City** P. 68
- **Change Province**: Selects the state or province.
  2**Selecting the State or Province** P. 67

▷Intersection

It is usually easier to select **Street** to find the streets first. The city or cities that the streets are in will be displayed. If you select **City** and your city is not listed, it may be part of a larger metropolitan area. Try entering the street first.

If the intersection is outside the province you are currently in, rotate $\odot$ to select **Change Province**.
2**Selecting the State or Province** P. 67
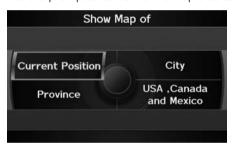

If there is more than one intersection, you are prompted to select the intersection. If the two streets that you have selected do not intersect, no intersection is entered.

Map Input

Use the Interface Dial to manually select an icon or a location on the map screen as the destination.

You are prompted to define the map area to display.

1. Rotate ⟳ to select an item. Press 🖐.

The following items are available:
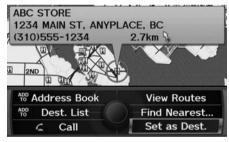

- **Current Position**: Your current location is centred on the map.

- **City**: You are prompted to select the city.

- **Province**: You are prompted to select the province.

- **USA, Canada and Mexico**: Your current location is displayed on a map of the country.

Navigation

2. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press ⬇.

▶ If the address is not the desired location, scroll the map to another location and try again.

3. Press ⬇ again to display the route calculation menu.
   ⮈ **Calculating the Route** P. 87

4. Rotate ⟲ to select **Set as Dest.** Press ⬇.

≫Map Input

A yellow box (shown at scales above 400 m) denotes the area that can be viewed when you press ⬇ on the current map.

Information icons are displayed at scales from 1.6 km to 400 m. Place/landmark icons are displayed at 200 m or less. Roads are displayed at 400 m or less.

If you select multiple icons within the cursor radius, you are prompted to select one of the items from a list.
⮈ **Selecting a Destination on the Map** P. 118

Calculating the Route

This section describes how to calculate your route.

The following options are available:

- Route Pref.: Changes the route preferences (calculating method).
  ▷ **Changing the Route Preference** P. 88

- View Routes: Displays three different routes.
  ▷ **Viewing the Routes** P. 88

- DESTINATION MAP: Move ⬇ to select DESTINATION MAP to display a map of the destination.
  ▷ **Calculating the Route on the Destination Map** P. 89

1. Rotate ⊙ to select OK. Press ⬇.

▶ The system calculates and displays the route line on the map screen.
   ▷ **Route Line** P. 91

2. Follow the route guidance to your destination.
   ▷ **Driving to Your Destination** P. 90

▶ The system provides you with pop-up messages if your route passes through unverified areas or avoid areas.

Changing the Route Preference

Change the route preference by selecting minimum or maximum driving methods.

1. Rotate ⟲ to select an item. Press ⨁.

2. Rotate ⟲ to select **MIN** or **MAX**. Press ⨁.

▶ Repeat step 1 and 2 as necessary.

3. Move ⨁ to select **OK**.

Viewing the Routes

View three different routes to your destination.

Rotate ⟲ to select a route. Press ⨁.

▶ The travel distance and estimated travel time is displayed for each route.

▶ The system calculates and displays the route line on the map screen.
➤ **Route Line** P. 91

≫ Changing the Route Preference

The calculated route may be the shortest route or the route you would choose. For safety reasons, the system generally applies the following rules to your route:

• Shortcuts through residential areas are avoided.
• Right turns are favoured over left turns or U-turns.
• Time-restricted turns (turns prohibited at certain times of the day) are not used.

Check the ferry schedule when the calculated route includes ferry route.

≫ Viewing the Routes

It is not unusual for some calculated route options to be identical.

Navigation

Calculating the Route on the Destination Map

Calculate the route from the map of the destination address.

Rotate ⊙ to select **Calculate Route**. Press ⬇.

▶The system calculates and displays the route line on the map screen.
2 **Route Line** P. 91

Navigation
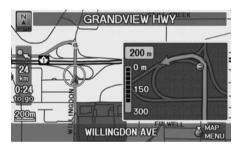

Driving to Your Destination

This section describes how to follow the route guidance to your destination and choose the icons displayed on the map screen.

Viewing the Route

■Map Screen

After calculating the route to your destination, the route is displayed on the map screen.
2 **Map Screen Legend** P. 10

As you drive, the system tracks your position on the map in real time and provides guidance as you approach each guidance point on the route.

Navigation

■ Guidance Screen

The guidance screen offers an alternative way to view your route.

- In single-screen mode, press the MAP/GUIDE button to switch between the map and guidance screens.
- In split-screen mode, press the MAP/GUIDE button to switch between the next guidance direction and a list of guidance directions.

■ Route Line

When driving on verified streets, the route line is light blue. The route line display changes when driving on unverified streets:

Vector line (dotted)

- If **Unverified Area Routing** is **OFF**, the route line uses verified streets only (when possible). A dotted "vector line" pointing directly towards your destination is also displayed.

≫ Guidance Screen

A visual guide helps you check the guidance screen.
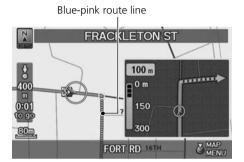

≫ Route Line

You can set **Unverified Area Routing** to **OFF** to follow your own route to the destination. If **Unverified Area Routing** is **ON**, be aware that unverified streets may not be displayed accurately.

You can always view the entire route by simply saying ⟨⟩ *"Display entire route."*

Navigation

Blue-pink route line

• If **Unverified Area Routing** is **ON**, the route line changes to a dashed blue-pink line to indicate that the route line uses unverified streets.

■ Deviating From the Planned Route

If you leave the calculated route, the system automatically recalculates a route to the desired destination based on your current location and direction.
2 **Rerouting** P. 49

≫ Deviating From the Planned Route
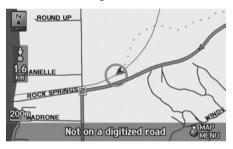

If **Rerouting** is set to **MANUAL** and you go off route, the system waits for you to manually initiate recalculation. Rotate ⌒ to select **Recalculation** and press ⍟.
2 **Rerouting** P. 49

■Driving Off-road

If you leave all mapped (digitised) roads, the system automatically starts displaying a series of dots (breadcrumbs) to track the path you are taking. If needed, you can follow the dots back to the mapped road you originally left.

▷ Off-road Tracking P. 58

A message "Not on a digitized road" may appear when you drive 800 m away from a mapped road.

Breadcrumbs may occasionally be displayed in urban areas, such as large parking lots in shopping malls, in new subdivisions where the roads are not yet in the database, or in areas where a GPS signal is unavailable, such as in a parking garage.

Off-road tracking breadcrumbs are limited to approximately 240 km. Breadcrumbs at the beginning of the trail are deleted if you exceed that distance.

Breadcrumbs are displayed only at 80, 200, 400, and 800 m map scales.

Navigation

Listening to Voice Guidance

⌨ ENTER button (on map) ▶ **Voice**

As you approach each guidance point, a pop-up window is displayed on the map screen with instructions for you to follow. Voice guidance for each guidance point is also provided.

Typically, you hear three prompts:

- 800 m from the guidance point (3 km on highway)

- 400 m from the guidance point (1.5 km on highway)

- Just before the guidance point

To replay voice guidance, rotate 🎛 to select **Voice** in the Map Menu.

If you select **Voice** between guidance points, voice guidance for the next guidance point is provided.

> 📘Listening to Voice Guidance

🔊 *"Voice"* (on the map screen)

You can turn voice guidance OFF if you prefer.
⊇ **Display and Volume Settings** P. 24

When driving in unverified areas, the phrase "if possible" is inserted before each voice guidance prompt.

Voice in the Map Menu may be grayed out if:
• The vehicle is approaching the guidance point.

• The vehicle is in an unverified area and
Unverified Area Routing is set to **OFF**.

The timing of voice guidance varies depending on the type of road you are on and the distance to the next guidance point.

Map Menu

Displaying the Map Menu

Use the Map Menu to control the icons displayed on the screen. You can also use the Map Menu to find locations or to cancel the route.

1. On the map screen, press 🔘 to select **MAP MENU** (if displayed).

▶ The Map Menu is displayed on the map screen.

2. Rotate 🔘 to select an item. Press 🔘.

The following items are available:

- **Voice:** Select to hear the voice guidance when en route.
  ▷ **Listening to Voice Guidance** P. 94

- **Map Information:** Allows you to select the information icons to display on the map, change the orientation of the map, or display your current location.
  ▷ **Map Information** P. 102

Navigation

- **Guidance Menu:** Allows you to set or confirm the guidance points and highway exits for your route.
  2 **Guidance Menu** P. 97

- **Find Nearest…:** Allows you to find the nearest place/landmark (e.g., nearest gas station) by specifying a category. You can then add the location to the list of destinations, set as a waypoint, or set as your destination.
  2 **Changing Your Destination** P. 117
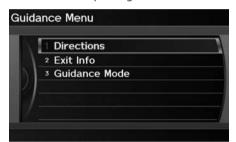

- **Cancel Route:** Cancels your current route.
  2 **Cancelling the Route** P. 111

Guidance Menu

ℵ ENTER button (on map) ▶ **Guidance Menu**

Display the guidance points and highway exits for your route, and set the display mode for the map and guidance screens.

Rotate ⟳ to select an item. Press ⟱.

The following items are available:

Changing Your Route

U DEST/ROUTE button (when en route)

This section describes how to alter your route, add an interim "waypoint" (pit stop), choose a different destination, cancel your current destination, and continue your trip after stopping.

Rotate ⟳ to select an item. Press ⟱.

The following items are available:

- **Cancel Route**: Cancels the route guidance.
  ▷ **Cancelling the Route** P. 111

- **Detour**: Calculates a detour route.
  ▷ **Taking a Detour** P. 111

- **Avoid Streets**: Avoids streets along your route.
  ▷ **Avoiding Streets** P. 111

- **Change Route Preference**: Changes the route preferences (calculating method).
  ▷ **Changing the Route Preference** P. 88

- **Waypoint**: Sets waypoints along your route.
  ▷ **Adding Waypoints from the Route Menu** P. 113

- **Destination Lists**: Shows a list of waypoints. You can delete waypoints or edit the order of them.
  ▷ **Editing the Destination List** P. 116

Cancelling the Route

🖐 DEST/ROUTE button (when en route) ▶ **Cancel Route**

Cancel the route guidance and remove the destination and all waypoints from the destination list. The system then returns to the map screen.

Taking a Detour

🖐 DEST/ROUTE button (when en route) ▶ **Detour**

Calculate a detour route manually. The system attempts to calculate a new route by avoiding the next 8 km (while on a highway) or 1.6 km (while on a surface street).

Avoiding Streets

🖐 DEST/ROUTE button (when en route) ▶ **Avoid Streets**

Select a street or streets along your route to avoid.

Select streets to avoid	
⊘ KENT ST	
↰ MACLAREN ST	0 m
↰ LYON ST N	200 m
↑ HWY-417 W	600 m
↱ TRANS CANADA HWY	63km
▽	
OK	

1. Rotate 🔘 to select the street you want to avoid. Press 🔘.

▶ Repeat the procedure to avoid other streets.

▶ Streets to be avoided are indicated with a trash icon.

🔁 Cancelling the Route

You can also cancel your route from the Map Menu.
🔁 **Map Menu** P. 95

🔁 Taking a Detour

The detour option is convenient if you encounter an unexpected obstacle such as a road closure or extremely heavy traffic congestion.

🔁 Avoiding Streets

Avoiding certain streets is convenient if you know of road construction, road closures, or excessive traffic along the route.

You cannot choose specific streets you want to use, only those to avoid. However, you can select intersections or waypoints (places/landmarks) that the system will use in your route.
🔁 **Adding Waypoints** P. 112

You can store up to 10 streets to avoid. You cannot avoid your current street or the streets of your waypoint(s) or destination (system beeps if selected).

Navigation
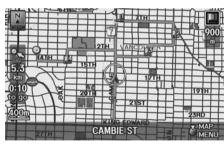

111

2. Move 🔍 to select **OK**.

  ▶ The system calculates a new
     route.

Adding Waypoints

Add up to four waypoints (pit stops) along the route to your destination.

Waypoints are displayed on the map
screen as small, numbered red flags.
The route follows the waypoints in
the order they are listed in the
Destination List.

>> Adding Waypoints

Waypoints allow you to stop for gas or food, for
example, and then continue on to your
destination.

Press the MAP/GUIDE button to return to the
map screen without adding a waypoint at any
time.

The search corridor used for adding waypoints
can be adjusted.
⊃Edit Waypoint Search Area P. 54

You can delete waypoints or edit the order of
waypoints in the destination list.
⊃Editing the Destination List P. 116

Changing Your Destination

There are several methods you can use to change the route destination.

Find Nearest Place

⅄ ENTER button (on map) ▶ **Find Nearest...**

Search for the nearest place/landmark on the map screen and set it as your destination.

1. Rotate ⟳ to select **Find Nearest...**. Press ⊘.
2. Rotate ⟳ to select a category type. Press ⊘.
3. Rotate ⟳ to select a place. Press ⊘.
4. Rotate ⟳ to set the place as a destination or add to the destination list. Press ⊘.

   ▶ The system calculates the route.
   ⊇ **Calculating the Route** P. 87
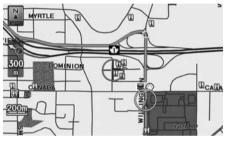

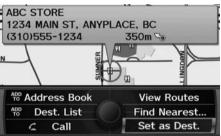

Navigation
Selecting a Destination on the Map

Select a new destination when en route by selecting a location on the map.

1. Scroll the map to position the cursor over your desired destination, adjusting the map scale as necessary. Press ⊙.

▶ If the address displayed is not the desired location, press the CANCEL button and repeat the procedure.

2. Rotate ⟳ to select **OK** or **Set as Dest.** (depending on the screen displayed). Press ⊙.
2 **Calculating the Route** P. 87

≫ Selecting a Destination on the Map

If there is more than one icon or street under the map cursor, you are prompted to select the item from a list.

- Rotate ⟳ to select an item. Press ⊙.
- If you select **Map Icon**, rotate ⟳ to select a place and press ⊙.

3. Rotate ⟳ to select an option. Press ⬇.

▶ The route is automatically recalculated and displayed on the map screen.

The following options are available:

- **New Dest.**: Sets the location as your new destination.
- **Waypoint**: Sets the location as a new waypoint.

Entering a New Destination

⊗ DEST/ROUTE button (when en route) ▶ **Dest. MENU 1** or **Dest. MENU 2**

Enter a new destination using the Destination Menu screen even when you are en route.

1. Rotate ⟳ to select a method to enter a new destination.
▷ **Entering a Destination** P. 64

▶ After entering a new destination, the address is displayed on the Calculate Route screen.

2. Rotate ⟳ to select **OK**. Press ⬇.

Navigation

3. Rotate ⟳ to select an option. Press ⬇.

▶ The route is automatically recalculated and displayed on the map screen.

The following options are available:

- **New Dest.**: Sets the location as your new destination.
- **Waypoint**: Sets the location as a new waypoint.

Navigation

Resuming Your Trip

Stop your vehicle en route (e.g., to rest, stop for gas, etc.), and then continue on your route.

If you did not complete your route, the Continue Trip screen is displayed when you restart your vehicle.

Rotate ⟳ to select **OK**. Press ✍.
▶You can continue on the same route.

- **Route Pref.**: Changes the route preferences (calculating method).
  ⊵ **Changing the Route Preference** P. 88

- **View Routes**: Displays three different routes.

Audio

This section describes how to operate the audio system. You can play music from a wide array of media sources, and control the audio system using the audio buttons, the Interface Dial, or voice control.

Audio System

About Your Audio System

The audio system features FM/AM radio and XM® Radio. It can also play audio discs, WMA/MP3/AAC tracks, iPod®, USB flash drives, and *Bluetooth*® devices.

The audio system is operable from the buttons and switches on the panel, or the remote controls on the steering wheel.
2 **Audio Remote Controls** P. 159
2 **Audio System** P. 6

Remote Control

iPod

USB Flash Drive

Auxiliary Input Jack

Use the jack in the center console compartment to connect standard audio devices.

1. Open the AUX cover.

2. Connect a standard audio device to the input jack using a 3.5 mm stereo miniplug.

▶ The audio system automatically switches to the AUX mode.

Audio

Audio System Theft Protection

The system is disabled when it is disconnected from the power source, such as when the battery is disconnected or goes dead.

■ **Reactivating the System**

1. Set the power mode to ON, and turn on the system.

▶ If you set the power mode to ACCESSORY, you will be requested to enter the security code. See step 3.

2. Press and hold the VOL ⏻ (Volume/Power) button again for more than two seconds.

▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle.

▶ If the control unit fails to recognize, "ENTER CODE" appears on the navigation screen.

3. Enter the security code.

▶ If you do not enter the code correctly after 10 tries, leave the system for one hour before trying again, or visit a dealer to have the system reset.

≫Audio System Theft Protection

Find the audio system's security code and serial number label in your Owner's Manual kit.

Do not store the label in your vehicle. If you lose the label, you must first retrieve the serial number, and then obtain the code from a dealer.
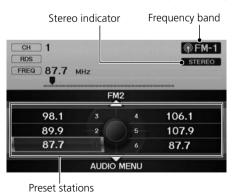

Audio

Playing FM/AM Radio

Selecting FM/AM Mode

1. Press the FM/AM button.

▶ Press the FM/AM button again, if necessary, to select the frequency band (AM, FM1, FM2).

2. Select a station using the Preset buttons and the bars (SKIP, TUNE, SCAN/A.SEL).

▶ On the FM bands, you can also use the CATEGORY bar and TITLE button to select a station provided by the Radio Data System (RDS).

▶ The band and frequency are displayed on the display.

Audio Screen Control

☡ AUDIO button (in FM/AM mode)

Control the audio system through the navigation screen.

Stereo indicator   Frequency band

CH	1
RDS	⦿ FM-1
FREQ	87.7 MHz STEREO

FM2

98.1	3	4	106.1
89.9	2	5	107.9
87.7		6	87.7

AUDIO MENU

Preset stations

1. Move ⬡ to select a frequency band (**AM**, **FM1**, or **FM2**).

2. Rotate ⟳ to select a preset station. Press ⬇.

▶ Press and hold ⬇ until a beep sounds to store the current station in a preset button.

▶ Move ⬇ to select **AUDIO MENU**.
≫ **Audio Menu** P. 127

The ST indicator comes on the display for stereo FM broadcasts. Stereo reproduction in AM is not available.

The radio can receive the complete AM and FM bands:

AM band: 530 to 1710 kHz
FM band: 87.7 to 107.9 MHz

You can store six AM stations and 12 FM stations in the preset buttons. FM1 and FM2 let you store six stations each.

Audio

Audio Menu

⌂ AUDIO button (in FM/AM mode) ▶ **AUDIO MENU**

Rotate ⟳ to select an item. Press ⟱.

The following items are available:

- **Sound Setup**: Displays the sound preferences screen.
  ⤷ **Adjusting the Sound** P. 158
- **Read Radio Text**: Displays the text information broadcast by the current RDS station.
  ⤷ **Radio Text Display** P. 129
- **RDS Search**: Searches for programmes by RDS category.
  ⤷ **Searching for Programmes by RDS Category** P. 128
- **Scan**: Scans for stations with a strong signal in the current band and plays a 10-second sample. Select **Scan** again to stop scanning and play the current selection.
- **A.Sel (Auto Select)**: When set to **ON**, scans and automatically stores up to six AM stations and 12 FM stations with a strong signal in the preset buttons.
- **Tune**: Tunes the radio to the frequency you select. Rotate ⟳ to select a frequency.

≫ Audio Menu

The A.SEL indicator comes on the display when **A.Sel** is **ON**. If you do not like the stations Auto Select has stored, you can change the frequencies stored in the preset buttons manually. Set **A.Sel** to **OFF** to restore the previous preset button settings.

Audio

Radio Data System (RDS)

Provides text data information related to your selected RDS capable FM station.

■RDS Info Display

Press the TITLE button to turn RDS information on or off. When set to ON, the name of the FM station is displayed on the display. When set to OFF, the frequency of the station is displayed.

■Searching for Programmes by RDS Category

⌂ AUDIO button (in FM/AM mode) ▶ **AUDIO MENU** ▶ **RDS Search**

Search for FM stations with a strong signal that are broadcast the selected RDS category information.

1. Move ◁◯ or ◯▷ to select a search method (**Seek up**, **Seek down**, **Scan**).

2. Rotate ◯ to select a category. Press ⬇.

   ▶ Scanning for stations in that category begins. When an RDS station is found, it begins to play.

   ▶ If there are no RDS-capable stations in the area, "NOTHING" briefly appears on the display.

Audio

■Radio Text Display

⌂ AUDIO button (in FM/AM mode) ▶ **AUDIO MENU** ▶ **Read Radio Text**

Display the radio text information of the selected RDS station.

Radio Text

The Text is displayed according to the information from RDS.

>> Radio Text Display

The RDS indicator comes on the display when the selected RDS station is broadcasting text data.
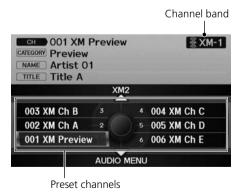

Audio

Playing XM® Radio

Selecting XM Mode

1. Press the XM button.

▶ Press the XM button again, if necessary, to select the channel band (XM1, XM2).

2. Select a channel using the Preset buttons and the bars (SKIP, TUNE, CATEGORY, SCAN/A.SEL).

▶ The band and channel are displayed.

Audio Screen Control

🎙 AUDIO button (in XM mode)

Control the audio system through the navigation screen.

Channel band

Preset channels

1. Move ⬡ to select the channel band (**XM1**, **XM2**).

2. Rotate ⟳ to select a preset channel. Press ⬡.

▶ Press and hold ⬡ until a beep sounds to store the current channel in a preset button.

▶ Move ⬡ to select **AUDIO MENU**.
2 **Audio Menu** P. 131

In the channel mode, all available channels are selectable. In the category mode, you can select a channel within a category (Jazz, Rock, Classical, etc.).

There may be instances when XM® Radio does not broadcast all the data fields (artist name, title). This does not indicate a problem with your audio system.

You can store 12 XM stations in the preset buttons. XM1 and XM2 let you store six stations each.

Audio

Audio Menu

⅋ AUDIO button (in XM mode) ▶ **AUDIO MENU**

Rotate �querý to select an item. Press ⌄.

The following items are available:

  ▷ **Adjusting the Sound** P. 158

- **Mode**: Sets **CH** (channel mode) or **CAT** (category mode) scan mode.

- **Channel List**: Displays the list of available channels. Scroll the list to select a channel.

- **Channel Scan**: Scans for channels with a strong signal in the current band and plays a 10-second sample. Select **Channel Scan** again to stop scanning and play the current selection.

- **Category Scan**: Scans for channels with a strong signal in the selected category in the current band and plays a 10-second sample. Select **Category Scan** again to stop scanning and play the current selection.

- **Tune**: Tunes to the channel you select. Rotate ⌀ to select a channel.

Audio

XM® Radio Service

■Subscribing to XM® Radio

1. You need your radio ID ready before registering for subscription.

▶ To see the ID in the display, press the ▶ (TUNE) bar while in XM mode until "0" appears in the centre display.

2. Have your radio ID and credit card number ready, and either call XM or visit the XM website to subscribe.

■Receiving XM® Radio

Press the XM button and stay in this mode for about 30 minutes until the service is activated. Make sure your vehicle is in an open area with good reception.

■XM® Radio Display Messages

LOADING: XM is loading the audio or programme information.

OFF AIR: The channel is not currently broadcasting.

UPDATING: The encryption code is being updated. Channels 0 and 1 still work normally.

NO SIGNAL: The signal is too weak in the current location.

--------: No such channel exists, the channel is not part of your subscription, or the artist or title information is not available.

CHECK ANTENNA: There is a problem with the XM antenna. Contact a dealer.

>> Subscribing to XM® Radio

Contact Information for XM® Radio:

U.S.: XM® Radio at *www.siriusxm.com*, or (800) 852-9696

Canada: XM Canada at *www.xmradio.ca*, or (877) 209-0079

>> Receiving XM® Radio

The XM satellites are in orbit over the equator; therefore, objects south of the vehicle may cause satellite reception interruptions. Satellite signals are more likely to be blocked by tall buildings and mountains the farther north you travel from the equator.

You may experience reception problems under the following circumstances:

• In a location with an obstruction to the south of your vehicle

• In tunnels

• On the lower level of a multi-tiered road

• Large items are carried on the roof rack

Audio

Playing a Disc

Selecting Disc Mode

1. Press the DISC button to play a CD or other disc.

2. Insert a disc into the disc slot.

► The disc automatically begins playing.

3. Select a track using the bars (SKIP, TUNE, CATEGORY, SCAN/A.SEL).

► The track number and elapsed time are displayed on the display. Title information for audio CDs is displayed if found in the Gracenote® Album Info (Gracenote® Media Database) stored on the built-in hard disc drive (HDD). Text information stored on MP3/WMA/AAC discs is also displayed.

  ⬚: Scans the first track in each folder on the disc and plays a 10-second sample. Select **OFF** to stop scanning and play the current selection.

Playing MP3/WMA/AAC Discs

🎵 AUDIO button (in DISC mode) ▶ **FOLDERS**

Change the folder on MP3/WMA/AAC discs that have tracks stored in a folder structure.

1. Rotate 🔘 to select a folder. Press 🔘.

  ▶ The system displays the track list.

2. Rotate 🔘 to select a track. Press 🔘.

  ▶ The system begins playing the selected track.

≫Playing MP3/WMA/AAC Discs

Folder List
- Any tracks not in a folder are automatically added to a "ROOT" folder, which is displayed at the top of the Folder List.
- If the root folder has additional folders in a lower layer, they are listed on the screen.

Audio

Recommended Discs

- Use only high-quality CD-R or CD-RW discs labeled for audio use.
- Use only CD-R or CD-RW discs on which the recordings are closed.
- Play only standard round-shaped discs.
- Use DVD-R/RW discs that meet DVD verification standards.

The disc packages or jackets should have one of these symbols.

Also includes:

■ Recording to HDD

- Only standard CD-DA (44.1 kHz, 16 bit stereo PCM digital sound data) discs can be recorded to HDD.
- Digital music tracks, such as MP3, WMA, AAC, etc., in CD-R or DVD-R cannot be copied to HDD. Likewise, digital music tracks recorded to HDD cannot be copied to CD-R and DVD-R.

■ Discs with MP3, WMA, or AAC Tracks

- Some software files may not allow for audio play or text data display.
- Some versions of MP3, WMA, or AAC formats may be unsupported. If an unsupported track is found, the audio unit displays "Unplayable File," and then skips to the next track.

>> Recommended Discs

A Dual-disc cannot play on this audio unit. If recorded under certain conditions, a CD-R or CD-RW may not play either.

Manufactured under license under U.S. Patent #'s: 5,451,942; 5,956,674; 5,974,380; 5,978,762; 6,487,535 & other U.S. and worldwide patents issued & pending. Playing Hard Disc Drive (HDD) Audio

The Hard Disc Drive (HDD) Audio function plays tracks from music CDs that have been recorded onto the built-in HDD. You can arrange the tracks in playlists or play the tracks using various search methods.

Selecting HDD Mode

1. Press the HDD/AUX button to play tracks stored on the HDD.

2. Select a track by genre, artist, album, recording date, playlist, or track list.

   ▶ The track number and elapsed time are displayed on the display. Title information is displayed if found in the Gracenote® Album Info (Gracenote® Media Database) stored on the HDD.

   ▶ The HDD has two types of playlists: original playlists and user playlists. An original playlist is automatically created for each album when a music CD is recorded. You can customise up to six user playlists provided on the HDD by adding tracks from your original playlists.

- **Delete Album (original playlists)**: Deletes the original playlist. Rotate ⟲ to select **Yes** at the confirmation prompt to delete the album.
- **Add to Playlist**: Adds the current track to a user playlist.

≫ Editing a Playlist or Album

The maximum number of songs in each of the six user playlists is 999. Adding new songs overwrites the oldest songs.

The maximum number of original playlists is 999 with a maximum of 99 songs in each playlist. Each album CD counts as an original playlist.

Adding a track from a user playlist into the same user playlist will cause the track to appear twice in the playlist.

Deleting an album (original playlist) also deletes the album tracks you have stored in any user playlists.

Deleting a user playlist or deleting all tracks from a user playlist does not remove the playlist folder. The folder retains the playlist name and artist information.

▶ The selection begins playing.

≫ Searching for Music

The order of the track list displayed if you select "All" on the iPod® menu varies depending on the iPod® model and software.

You can also search for music on the iPod® through voice commands using SBV.
⊇ Searching for Music Using Song By Voice™ (SBV) P. 151

SHUFFLE ALL SONGS
Move ⛃ to select **SHUFFLE ALL SONGS** to shuffle the playback of all tracks on the iPod®.

PLAY SELECTED
Move ⛃ to select **PLAY SELECTED** to play all the items listed below.

Searching for Music Using Song By Voice™ (SBV)

Use Song By Voice™ (SBV) to search for and play music from your HDD or iPod® device using voice commands.

1. Set **Song By Voice** to **ON** in the system setup.
   ⊇**Song By Voice™ (SBV)** P. 45

2. Say 🎤 *"Hard Disc Drive Search"* or 🎤 *"iPod Search"* to activate the SBV feature for the HDD or iPod®.

   ▶ The SBV commands that you can use are displayed on the screen.

3. Say a command.

   ▶ Example 1: Say 🎤 *"List Artist 'Artist A'"* to view a list of songs by that artist. Select the desired song to start playing.

   ▶ Example 2: Say 🎤 *"Play Artist 'Artist A'"* to start playing songs by that artist.

4. To cancel SBV mode, press the 🔙 (Back) button on the steering wheel or any button on the navigation system interface. The selected song continues playing.

>> Searching for Music Using Song By Voice™ (SBV)

The SBV voice commands give you more control over the music than the regular iPod® and HDD voice commands.
⊇**Song By Voice™ Commands** P. 223

You can add phonetic modifications of difficult words so that it is easier for SBV to recognize artists, songs, albums, and composers in voice commands.
⊇**Phonetic Modification** P. 46
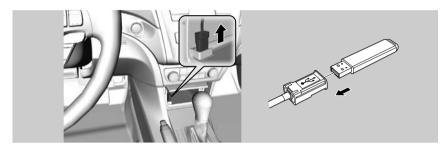

SBV may not be able to recognize languages other than English for the artist name, song title, album title, and composers.

Once you have cancelled this mode, you need to say 🎤 *"Hard Disc Drive Search"* or 🎤 *"iPod Search"* again to re-activate this mode.

Playing a USB Flash Drive

■ Connecting a USB Flash Drive

1. Unclip the USB connector in the front console and loosen the adapter cable.
2. Install the USB flash drive to the USB connector.

■ USB Flash Drives

Use a recommended USB flash drive of 256 MB or higher.

Some digital audio players may not be compatible.

Some USB flash drives (e.g., a device with security lockout) may not work.

Some software files may not allow for audio play or text data display.

Some versions of MP3, WMA, or AAC formats may be unsupported.

- Do not use an extension cable with the USB adapter cable.
- Do not connect your USB flash drive using a hub.
- Do not use a device such as a card reader or hard disk drive, as the device or your tracks may be damaged.
- We recommend backing up your data before using the device in your vehicle.

Digital music tracks, such as MP3, WMA, AAC, etc., in USB flash drives cannot be copied to HDD. Likewise, digital music tracks recorded to HDD cannot be copied to USB flash drives.

Selecting USB Mode

1. Connect the USB flash drive to the USB adapter cable in the console compartment.

2. Press the HDD/AUX button until you get to USB mode.

3. Select a track using skip, scan, folder list, or track list.

▶ The current track number and folder number are displayed on the display.

• The phone is not linked to HFL.
• The phone is not turned on.
• The phone is not in the vehicle.
• An incompatible phone is connected.

▶Audio Screen Control
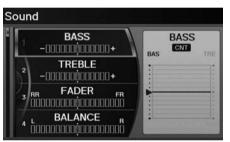

The display items may vary depending on the connected device.

The pause function may not be available on some devices.

Audio

Adjusting the Sound

$\mathbb{Y}$ AUDIO button ▶ **AUDIO MENU** ▶ **Sound Setup**

Adjust the sound bass, treble, fader, and balance. You can also adjust the strength of the sound coming from the centre and subwoofer speakers. In addition, you can set Dolby PL (ProLogic) II and Speed-sensitive Volume Compensation (SVC).

1. Rotate ⌒ to select the sound mode to adjust. Press ⌣.

2. Rotate ⌒ to adjust the desired level. Press ⌣.

   ▶ The display returns to the audio screen after a few seconds.

You can also use the ♪/◁ (Sound) button to adjust the sound. Press the ♪/◁ button repeatedly to cycle through the edit modes, displayed on the display. Rotate the VOL ⏻ knob to adjust the setting.

You can check the level on the navigation screen or on the display. When the level reaches the centre, you will see "C" in the display.

Fader adjusts the front-to-back strength, while balance adjusts the side-to-side strength. If the fader adjustment is set to the maximum front level, the subwoofer is turned off. If the fader is set to the maximum rear level, the centre speaker is off.

Dolby PL II signal processing creates multi-channel surround sound from 2-channel stereo audio sources. Dolby ProLogic II is available only in DISC (CD-DA, MP3, WMA, AAC), XM® Radio, AUX (USB, iPod®, AUX, *Bluetooth*® Audio), and HDD modes.
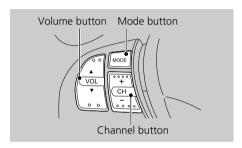

Manufactured under license from Dolby Laboratories. Dolby, ProLogic, MLP Lossless, and the double-D symbol are trademarks of Dolby Laboratories.

The **SVC** has four modes: **OFF**, **LOW**, **MID**, and **HIGH**. SVC adjusts the volume level based on the vehicle speed. The faster you go, the audio volume increases. As you slow down, the audio volume decreases. If you feel the sound is too loud, choose **LOW**, and vice versa.

Pairing a Phone

PHONE button

When no *Bluetooth*-compatible phone has ever been paired to the system, the following screen appears:

1. Rotate to select **Yes**. Press .
2. Put your cell phone in "Discovery" or "Search" mode.
3. Press to select **OK**.
   ▶ The system begins to search for your phone.
4. Rotate to select your phone in the list. Press .
   ▶ Select **PHONE NOT FOUND?** if your phone is not found.
   ▶ Refer to your phone manual for instructions on searching for a *Bluetooth*® device.
5. Enter the four-digit pass-key on your phone when prompted to complete the pairing process.

> ▶ Pairing a Phone
>
> Your *Bluetooth*-compatible phone must be paired to HFL before you can make and receive hands-free calls.
>
> You can control the HFL system using voice commands.
> ▷ **HFL Menus** P. 178
>
> The maximum range between your phone and vehicle is about 30 feet (10 meters).
>
> **Phone Pairing Tips**
> - You cannot pair your phone while the vehicle is moving.
> - Your phone must be in discovery or search mode when pairing the phone. Refer to your phone's manual.
> - Up to six phones can be paired.
> - Your phone's battery may drain faster when it is paired to HFL.
> - If your phone is not ready for pairing or not found by the system within three minutes, the system will time out and returns to idle.
> - The default pass-key "0000" is used until you change the setting.
>
> **Pass-Key**
> You can change the pass-key setting.
> ▷ **Changing the Pass-key** P. 166

■Pairing from Phone Setup

ℍ PHONE button ▶ **PHONE SETUP** ▶ **Connection**

Use the Phone Setup screen to pair an additional *Bluetooth*-compatible phone if a phone has been previously paired to the system.

1. Rotate ◌ to select **Add New Phone**. Press ▽.

2. Put your cell phone in "Discovery" or "Search" mode.

3. Press ▽ to select **OK**.

▶ The system begins to search for your phone.

4. Rotate ◌ to select your phone in the list.

▶ Select **PHONE NOT FOUND?** if your phone is not found.

▶ Refer to your phone manual for instructions on searching for a *Bluetooth*® device.

5. Enter the four-digit pass-key on your phone when prompted to complete the pairing process.

Bluetooth® HandsFreeLink®

■ Changing the Pass-key

▶ The *Bluetooth*® icon indicates the currently linked phone.

▶ Items to be deleted are indicated with a trash icon.

3. Move ♀ to select **OK**.

4. Rotate 🔘 to select **Yes**. Press ⬇ to delete the device(s).

■ Changing the Currently Paired Phone

🔧 PHONE button ▶ **PHONE SETUP** ▶ **Connection**

Connection   Phone 01

Add New Phone   Connect

Disconnect   Delete

Pass-key

1. Rotate 🔘 to select **Connect**. Press ⬇.

2. Rotate 🔘 to select a phone. Press ⬇.

▶ HFL disconnects the linked phone and starts connecting to another paired phone.

3. Press ⬇ to select **OK**.

≫ Changing the Currently Paired Phone

If no other phones are found or paired when trying to switch to another phone, HFL will inform you that the original phone is linked again.

Bluetooth® HandsFreeLink®

Setting Up Speed Dialing

PHONE button ▶ **PHONE SETUP** ▶ **Edit Speed Dial** ▶ **Store Speed Dial**

Create speed dial entries with voice tags for easy calling.

1. Rotate 🔘 to select a location in the speed dial list. Press 🔘.

2. Rotate 🔘 to select a number entry method. Press 🔘.

3. Follow the prompt to enter a voice tag.
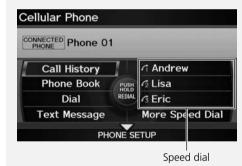

The following options are available:

- **Phone Book:** Adds a number from the imported phonebook.
- **Call History:** Adds a number from the last 30 numbers.
- **Dial:** Enters a number manually.

▷ Setting Up Speed Dialing

You can control the HFL system using voice commands.
▷ **HFL Menus** P. 178

Up to 20 speed dial entries can be stored per user. The first three entries are displayed on the Cellular Phone screen.

Speed dial

You can select a "No Entry" field directly from the Cellular Phone screen to store a speed dial number.

Bluetooth® HandsFreeLink®

■ Registering a Voice Tag to a Speed Dial Entry

PHONE button ▶ **PHONE SETUP** ▶ **Edit Speed Dial**

1. Rotate ⌾ to select **Store Voice Tag**. Press ⌾.

2. Rotate ⌾ to select a speed dial entry. Press ⌾.

3. Follow the prompt to enter a voice tag.

≫ Registering a Voice Tag to a Speed Dial Entry

Voice tags allow you to call speed dial entries from any screen by saying ⎝ *"Dial by voice tag"* and the voice tag, followed by ⎝ *"Dial."*

• Avoid using duplicate voice tags.

• Avoid using "Home" as a voice tag.

• It is easier for HFL to recognize a longer name (e.g., "John Smith" instead of "John").

≫ Deleting a Voice Tag

1. Rotate ⌾ to select **Delete Voice Tag**. Press ⌾.

2. Rotate ⌾ to select the number you want to delete the voice tag for. Move ⌾ to select **OK**.

≫ Deleting a Speed Dial Entry

1. Rotate ⌾ to select **Delete Speed Dial**. Press ⌾.

2. Rotate ⌾ to select the entry you want to delete. Move ⌾ to select **OK**.

Bluetooth® HandsFreeLink®

Editing User Name and PIN

🎙 PHONE button ▶ **PHONE SETUP** ▶ **Edit Phone Name/PIN**

Edit the user name of a paired phone, and protect the phonebook and speed dial entries with a PIN.

Rotate ◌̂ to select an item. Press ◌̌.

The following items are available:

• **Name:** Enter a name.
• **PIN:** Enter a four-digit PIN. Re-enter to confirm. You can select **DO NOT USE PIN** to remove a PIN.

≫ Editing User Name and PIN

You can control the HFL system using voice commands.
▷ **HFL Menus** P. 178

You can name up to six HFL users. Each can be PIN protected, and have their own phonebook, speed dial entries, and call history.

PIN-protected speed dial

Bluetooth® HandsFreeLink®

Phone Setup

〔 PHONE button ▶ **PHONE SETUP**

Set HFL options and features.

1. Rotate ⊙ to select an item. Press ⊛.

2. Rotate ⊙ to select an option. Press ⊛.

The following items are available:

• **Connection**: Pairs your phone to the system, connect/disconnect your phone, or changes the pass-key.
2**Pairing a Phone** P. 164

• **Edit Speed Dial**: Stores/deletes the speed dials or edits the voice tag.
2**Setting Up Speed Dialing** P. 169

• **Edit Phone Name/PIN**: Change your phone name or protects the phonebook/speed dials with a PIN.
2**Editing User Name and PIN** P. 171

• **Auto Transfer**: Sets whether to automatically transfer a call from your phone to HFL when you enter and turn on the vehicle.
ON (factory default): Automatically transfers your call to HFL.
OFF: Disables the feature.

• **Auto Answer**: Sets whether to automatically answer an incoming call after about **2**, **5**, or **10** seconds. To disable the feature, select **OFF** (factory default).

>> Phone Setup

You can control the HFL system using voice commands.
2**HFL Menus** P. 178

• **Clear Cellular Phone Information**: Clear all paired phones, phonebook entries, speed dials, and pass-keys.
• **Text Message Notice**: Sets whether to give an incoming message notification.
  ON (factory default): Gives an incoming message notification.
  OFF: Messages are still received, but without notification.

>> Phone Setup

Text Message Notice can be set separately for each paired phone.

Bluetooth® HandsFreeLink®

Making a Call

Make calls by entering a number or using the imported phonebook, call history, or speed dial entries.

2 **Using the Phonebook** P. 175
2 **Entering a Phone Number** P. 175
2 **Using Call History** P. 176
2 **Using Speed Dial** P. 176

Say the number to dial

To dial a phone number, press the talk button and say the phone number.

PRESS ⬏ TO EXIT

Say the phone number or the voice tag (e.g., "*John Smith*"), followed by "*Dial.*"
2 **Registering a Voice Tag to a Speed Dial Entry** P. 170

Only one phone can be used with HFL at a time. When there are more than two paired phones in the vehicle, a first paired phone the system finds will be automatically linked.

■Using the Phonebook

📞 PHONE button ▶ **Phone Book**

Select a name   A-E ▶ F-J \ K-O

1	Andrew	🏢🏢🏢...
2	Anna	🏢🏢🏢...
3	Antonio	🏢 🏢
4	Bob	🏢
5	David	🏢
6	Eric	🏢🏢🏢...

1. Rotate 🎛 to select a name. Press 🎛.

▶ Move ◁◯ or ◯▷ to select alphabetical tabs to display the entries in the group.

2. Rotate 🎛 to select a number. Press 🎛 to begin dialing.

■Entering a Phone Number

📞 PHONE button ▶ **Dial**

Enter phone number

1. Enter a phone number.

2. Move 🎛 to select DIAL to begin dialing.

>> Using the Phonebook

Your phonebook is automatically imported when the phone is paired.

Up to three icons are displayed for each phonebook entry. If there are more than three numbers for an entry, "…" is displayed.

☎	Preference	📠	Fax
🏠	Home	🚗	Car
📱	Mobile	💬	Voice
🏢	Work	★	Other
📟	Pager		

This feature is not available on all phones.

>> Entering a Phone Number

A command that consists of several words can be spoken together. For example, say 🎤 *"123-456-7890"* at once.

Bluetooth® HandsFreeLink®

■Using Call History

*PHONE button ▶ **Call History***

Rotate ◎ to select a call. Press ◎ to begin dialing.

▶Move ◁◎ or ◎▷ to select **All**, **Dial**, **Receive**, **Missed** to view the call history by category.

■Using Speed Dial

From the Cellular Phone screen: Rotate ◎ to select one of the three speed dial numbers. Press ◎ to begin dialing.

From the Cellular Phone screen: Rotate ◎ to select **More Speed Dial**. Press ◎. Rotate ◎ to select a number. Press ◎ to begin dialing.

>> Using Call History

The call history only shows the last 20 calls from your phone.

>> Using Speed Dial

To make a call using speed dial, you need to create speed dial entries.
⮕**Setting Up Speed Dialing** P. 169
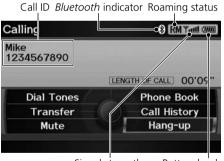

If the phone is PIN-protected, enter the PIN when prompted. Select **OK**. PINs are optional.
⮕**Editing User Name and PIN** P. 171

Bluetooth® HandsFreeLink®

Receiving a Call

1. Press the ⌒ (Pick-Up) button to answer a call and display the Calling screen.

▶ "HANDSFREELINK" is also displayed on the display.

Call ID   *Bluetooth* indicator   Roaming status

Signal strength   Battery level

2. Press the ☏ (Hang-Up) button to terminate the call.

The following options are available during a call:

- **Dial Tones** (available on some phones): Allows you to send numbers or names during a call. This is useful when you call an automated phone system.
- **Transfer**: Allows you to transfer a call from HFL to your phone, or from your phone to HFL.
- **Mute**: Allows you to mute your voice.

>> Receiving a Call

An incoming call notification appears on the screen, and you hear an audible ring tone.

If your phone has Call Waiting, press the ⌒ button to put the original call on hold and answer the incoming call. To return to the original call, press the ⌒ button again. If you want to hang up the original call and answer the new call, press the ☏ button.

To change the volume level of HFL, use the audio system volume knob or the steering wheel volume controls.

Some phones may send battery, signal strength, and roaming status information to the screen.

Phone Book
Displays the cell phone's imported phonebook.

HFL Menus
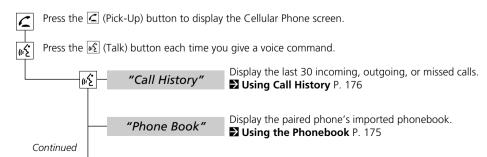

The power mode must be in ACCESSORY or ON to use HFL.

You can operate HFL by voice when on the Cellular Phone screen. Below is the flow chart showing available voice commands.
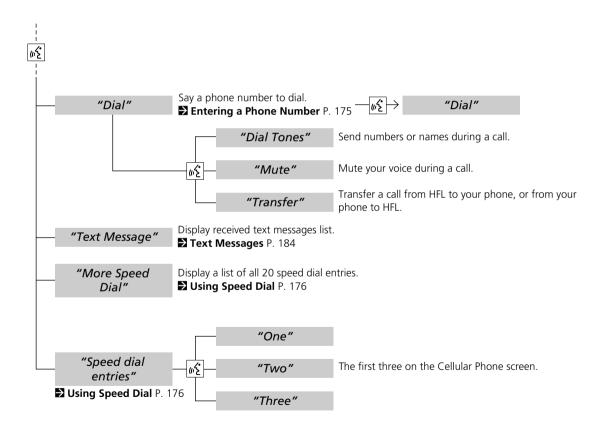

≫ HFL Menus

To use HFL, you must first pair your *Bluetooth*-compatible cell phone to the system while the vehicle is parked.

📞   Press the 📞 (Pick-Up) button to display the Cellular Phone screen.

🗣   Press the 🗣 (Talk) button each time you give a voice command.

"Phone Setup"

🗣   *"Connection"*   🗣

You can change the wallpaper picture.
2 **Wallpapers Setting** P. 32

Other Features

Multi-View Rear Camera
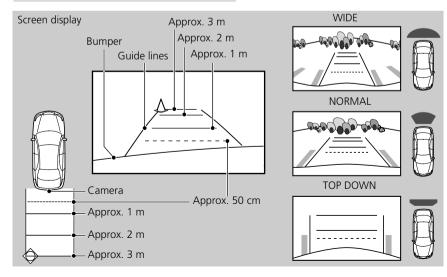

Your vehicle is equipped with a multi-view rear camera. When you shift into Reverse, the rear view is displayed on the navigation system screen. The edge of the bumper and parking guide lines are also displayed.

To turn the guide lines on or off, press and hold the CANCEL button for about three seconds.

Rotate 🔘 to adjust the screen brightness.

While the rear view is displayed, press 🔘 to switch between WIDE, NORMAL, and TOP DOWN view modes.

Troubleshooting

Troubleshooting

Map, Voice, Entering Destinations

Problem	Solution
The Startup Confirmation screen is displayed every time I start the car.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. If you do not select **OK** at startup, voice commands will not work.
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see a dealer.
How do I specify a destination when an entered city or street could not be found?	• Try entering the street first. Some cities are lumped in with a major metro area. In rural "unverified" areas or new subdivisions, streets may be missing or only partially numbered. • Try selecting the destination directly from the map. ≫ **Map Input** P. 85
Why do some letters become greyed out when I enter an address?	As you enter each letter in an address or a place/landmark, the navigation system looks in the database to see what letters are possible and greys out letters that do not apply.
How do I delete Personal Addresses, Previous Destinations, or the Home Address?	**1.** Press the INFO button. Select **Set up** > **Personal Information** to display the types of information. **2.** Select the type of address to delete. **3.** Select **Delete**.

I cannot hear the navigation system voice.	**1.** Press the INFO button. Select **Set up** and check that **Volume** is not set to **OFF**.
	  ≫ **Display and Volume Settings** P. 24
	2. Select **Other** > **Basic Settings** and set **Voice Recognition Tutor** to **ON**.
	  ≫ **Basic Settings** P. 26

The voice control system is having difficulty recognizing my voice commands.	• Check that the vents are not blowing air onto the microphone on the ceiling, the vehicle is as quiet as possible, and you are using the correct command when speaking. ≫ **Voice Recognition** P. 23 • Say ⓦ⛛ *"Help"* on any screen to see a list of the applicable voice commands.
I cannot give voice commands.	Make sure you selected **OK** at the Startup Confirmation screen. ≫ **Start-up** P. 20

Problem	Solution
I cannot select an option using the Interface Dial.	To prevent driver distraction, certain onscreen functions and features are limited or inoperable while the vehicle is moving. Use voice commands or pull over to proceed.
The navigation system pronunciation of street names in the guidance command or destination address sounds strange.	The basic guidance phrases use a studio-recorded voice, but street names are pronounced using a machine-generated voice. Consequently, the name may be mispronounced or sound strange at times.
The screen is bright when I drive at night.	**1.** Check that the night time dashboard brightness control is not set to maximum. **2.** Press the INFO button. Select **Set up** > **Other** > **Colour** > **Map Colour**. Set the Night colour to Black for the best contrast. ▷**Switching Display Mode Manually** P. 29
The screen is dark when I drive during the day.	Press the INFO button. Select **Set up** > **Other** > **Colour** > **Map Colour**. Set the Day colour to White for the best contrast. ▷**Switching Display Mode Manually** P. 29
How do I change or remove my PIN?	**1.** Press the INFO button. Select **Set up** > **Personal Information** > **PIN Number** > **GO Home 1 PIN** or **GO Home 2 PIN** or **Address Book PIN**. **2.** Enter your existing PIN. You then have the choice to change or remove the PIN. ▷**PIN Numbers** P. 42
I have forgotten my PIN. How do I reset the PIN for Home or the PIN for personal addresses?	A dealer must reset the PIN for you.
Why is Call greyed out on the Calculate Route screen?	Your phone is not paired to *Bluetooth*® HandsFreeLink® or, if paired, your phone is in use.

Troubleshooting

Guidance, Routing

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route. 2 **Changing the Route Preference** P. 88
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. 2 **Map Coverage** P. 211
The vehicle position icon is not following the road and the "GPS icon" text in the upper left hand corner of the screen is white or missing.	• Check that the GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, cell phones, or loose articles. • Metallic tinting or other aftermarket devices can interfere with the GPS reception. Please consult a dealer. 2 **GPS System** P. 208
The blue highlighted route and voice guidance stopped or turned into a blue/pink dashed line before I got to my destination.	Your route has entered an unverified area. 2 **Unverified Area Routing** P. 50
How do I stop the map from rotating as I drive along?	Press the ENTER button to display the Map Menu. Select **Map Information** > **North-up**, or say *"Display north-up"* to change the map orientation.
Sometimes, I cannot select between the North-up and Heading-up map orientations.	The Heading-up map orientation can only be shown in the lower scales (80 m - 1.6 km scales). 2 **Map Scale and Functions** P. 108
The "time to destination" display sometimes increases even though I am getting closer to my destination.	If your speed reduces due to slower traffic, the navigation system updates the "time to destination" based on your actual road speed to give you a better estimate of arrival time.
The vehicle position icon on the map "lags" a short distance behind, especially when I arrive at an intersection.	This is normal. The navigation system is unaware of the width of intersections. Large differences in vehicle position can indicate a temporary loss of the GPS signal. 2 **GPS System** P. 208

Troubleshooting

Problem	Solution
The screen is showing white dots as I drive along.	These dots are called "breadcrumbs." These are displayed if **Off-road Tracking** is set to **ON** and you drive more than 800 m off mapped roads. ⊇ **Off-road Tracking** P. 58
How do I remove the white dots ("breadcrumbs") from my screen?	Press the INFO button. Select **Set up** > **Other** > **Vehicle**, and set **Off-road Tracking** to **OFF**, then return to the map. ⊇ **Off-road Tracking** P. 58
A road that I selected to avoid is being used when routing.	When you "draw" your area to avoid, make sure to select sections of roads that include at least one intersection. ⊇ **Avoiding Streets** P. 111
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ±100 feet due to GPS calculation errors. ⊇ **GPS System** P. 208
My elevation is missing on the "current position" screen.	The elevation is only displayed if the GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

Troubleshooting

Update, Coverage, Map Errors

Problem	Solution
My city is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision. You can access the most recent information on the internet. 2**Map Coverage** P. 211
Does the navigation system work outside North America?	The navigation system contains maps for the 50 U.S. states, Canada, Puerto Rico, and Mexico. The navigation system will not work in other countries. 2**Map Coverage** P. 211
How do I report errors I find in the database?	Minor errors are bound to occur in a large database. If you encounter major errors, see 2**Reporting Errors** P. 210

Display, Accessories

Problem	Solution
The display appears dim when starting the car in really cold weather.	This is normal. The display will become brighter after a few minutes.

Multi-View Rear Camera

Problem	Solution
When I shift gears, the rear camera image display is delayed.	This is normal. When shifting into or out of Reverse, you may experience a delay while the screen image switches between the navigation screen and the rear camera image.
The rear camera image is too dark or too bright. How do I adjust the brightness?	While the camera image is displayed, rotate the Interface Dial to adjust the brightness. This adjustment does not affect the navigation screen brightness settings.

Miscellaneous Questions

Problem	Solution
My clock frequently changes forward and backward by one hour.	The clock setting is automatically updated based on your GPS location. If you live and work on the boundary between two time zones, you can turn off this feature. ⊇ **Clock Adjustment** P. 55
The clock changes even when I am not driving near a time zone boundary.	The time zone boundaries are only approximated in the navigation system. Depending on the geography of the time zone boundary, the switch to a different zone can be erratic. ⊇ **Clock Adjustment** P. 55
My province does not observe daylight saving time. How do I turn off this feature?	Press the INFO button. Select **Set up** > **Other** > **Clock Adjustment**, and set **Auto Daylight** to **OFF**. ⊇ **Clock Adjustment** P. 55
Daylight saving time has started, but the navigation system did not change time even though Auto Daylight is set to ON.	The automatic daylight feature does not work in regions where the daylight saving time system has not been adopted.
The navigation system automatic daylight feature is not switching the navigation system clock on the correct dates.	Press the INFO button. Select **Set up** > **Other** > **Clock Adjustment**, and set **Auto Daylight** to **ON**. Note that the automatic daylight feature does not work in regions where the daylight saving time system has not been adopted. ⊇ **Clock Adjustment** P. 55
The navigation system clock switched by one hour for no apparent reason.	You may be driving near a time zone boundary. ⊇ **Clock Adjustment** P. 55
My battery was disconnected or went dead, and the navigation system is asking for a code.	Press and hold the VOL ⏻ (Volume/Power) button for two seconds. The system should reactivate. If you have installed an aftermarket system, contact a dealer. ⊇ **Entering the Security Code** P. 206
How do I change the interface language?	Press the INFO button. Select **Set up** > **Other** > **Language**, and set the language to **English**, **Français**, or **Español**.

Troubleshooting

Error Messages

Navigation System

Error Message	Solution
The display temperature is too high! For protection, the display will shut down.	This message appears briefly when the display temperature is too high. The navigation system turns off until the display cools down. The system turns back on automatically when the display cools down.
Cannot write to the HDD due to the low temperature. Please wait until the system warms up.	The navigation system has difficulty reading the HDD when the temperature is below approximately -30°C (-22°F). The navigation system starts up automatically when the display warms up.
Cannot access the HDD due to low atmospheric pressure. Navigation and HDD audio functions are disabled. The system will restart when atmospheric pressure is OK.	The HDD is inoperable due to low atmospheric pressure. Move your vehicle to the place where the atmospheric pressure is high.
No alternate route found.	No alternative route method was found. The original route method will be used. Ensure that a road name is displayed at the bottom of the map. If the error persists, or is shown for a wide area, see a dealer.

Disc Player

Error Message	Cause	Solution
BAD DISC PLEASE CHECK OWNERS MANUAL	Servo error	• Press the ⏏ (Eject) button and remove the disc, and check that the error message is cleared. • Check that the disc is not damaged or deformed, and insert the disc again. ⊇ **Recommended Discs** P. 136 • If the error message reappears, press the ⏏ button, and pull out the disc. • Insert a different disc. If the new disc plays, there is a problem with the first disc. • If the error message repeats, or the disc cannot be removed, contact a dealer. Do not try to force the disc out of the player.
BAD DISC PLEASE CHECK OWNERS MANUAL PUSH EJECT	Mechanical error	
Mech Error	Mechanical error	
Check Disc	Focus error Disc violates copyright Disc not supported	
CHECK DISC LOAD	Load error	
Unplayable File	Track format not supported	• Current track will be skipped. The next supported track plays automatically.
Heat Error	High temperature	• Turn the audio system off and allow the player to cool down until the error message is cleared.

Troubleshooting

iPod®

Error Message	Cause	Solution
UNSUPPORTED Ver.	Appears when an unsupported iPod® is connected.	Update the iPod® software to the latest version.
CONNECT RETRY	Appears when the iPod® cannot be authenticated.	Reconnect the iPod®.
No Song	Appears when there are no tracks in the iPod®.	Store tracks in the iPod®.

Troubleshooting

USB Flash Drive

Error Message	Cause	Solution
File Error	The system cannot read the track(s).	Check the tracks in the USB flash drive. There is a possibility that the tracks have been damaged.
Unsupported	Appears when an unsupported device is connected.	If it appears when a supported device is connected, reconnect the device.
Unplayable File	Appears when the tracks in the USB flash drive are DRM or an unsupported format.	This error message appears for about 3 seconds, then plays the next song.
No Song	Appears when the USB flash drive is empty or there are no tracks in MP3, WMA, or AAC format in the drive.	Save tracks in MP3, WMA, or AAC format in the USB flash drive.

Troubleshooting

Reference Information

The navigation system must be initialised if power to the navigation system is interrupted for any reason (e.g., the battery was disconnected).

Entering the Security Code

Find the navigation system's security code and serial number label in your Owner's Manual kit. Do not store the label in your vehicle. If you lose the label, you must first retrieve the serial number, and then obtain the code. You can find out about your serial number and security code from a dealer.

Enter code

To enter the security code automatically, push and hold the audio power button for 2 seconds. If this does not work, manually enter the security code by turning the audio on and using the preset buttons below.

1. Set the power mode to ON, and turn on the audio system.

  ▶ If you set the power mode to ACCESSORY, you will be requested to enter the security code. See step 3.

2. Press and hold the VOL ⏻ (Volume/Power) button for more than two seconds.

  ▶ The system is reactivated when the system's control unit recognizes that the system is in your vehicle.
  If the control unit fails to recognize, "ENTER CODE" appears on the navigation screen.

3. Enter the security code.

  ▶ If you do not enter the security code correctly after 10 tries, leave the system for one hour before trying again, or visit a dealer to have the system reset.

Acquiring GPS Information

Depending on the length of time the power was interrupted, your system may require GPS initialisation.

Confirmation

The navigation system lost power and is acquiring its location from the GPS satellites.
This usually takes less than 10 minutes.
* Start the engine.
* Park the vehicle in an open area away from trees, power lines, and tall buildings.
* Remove loose articles, mobile phones, or electrical accessories located near the GPS antenna.
* If this screen is displayed repeatedly when starting the vehicle, see your dealer.

If initialisation is not necessary, the system proceeds directly to the Startup Confirmation screen.

If the system fails to locate a sufficient number of satellites to locate your position within 10 minutes, the following screen is displayed.

Confirmation

Something is interfering with the system's ability to acquire its location. Check the following:
* The vehicle must be in an open area with a clear view of the sky.
* Remove sources of GPS interference like metallic window tint above antenna, or electrical items near antenna (see owner's manual for details).
* Check GPS antenna cable connection.
* Restart the engine and repeat the GPS acquire procedure. If the problem persists, see your dealer.

OK
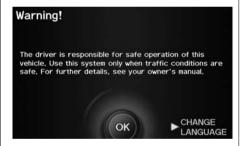

If you are experiencing GPS reception problems:

Startup Confirmation Screen

The Startup Confirmation screen is displayed when initialisation has successfully completed. It is displayed every time you start your vehicle. Press ⊙ to select **OK** to continue.

Warning!

The driver is responsible for safe operation of this vehicle. Use this system only when traffic conditions are safe. For further details, see your owner's manual.

OK   ▶CHANGE LANGUAGE

Map Matching

Map matching is the process of using the acquired GPS information to locate your position on the map screen. If you are on a mapped road, the name of the road is displayed along the bottom of the map screen when map matching is completed. Do not enter a destination until the road name is displayed.

The system may initially show your location on a different street (e.g., in urban areas where streets are close together), may show an incorrect elevation, or may delay the display of the vehicle position icon at intersections. This is normal; the system will correct itself while you drive.

Reference Information

GPS System

The signals received from the GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. The GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Cell phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or "hidden" vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, highway overpasses, tunnels, or overhead electrical power wires

The GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into the GPS for which the navigation system must constantly compensate. This can cause occasional positioning errors of up to several hundred feet.

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitised map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.

For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorised, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.

In addition, the map database contains verified and unverified areas. Unverified streets may be missing from the map, in the wrong location, or have an incorrect name or address range. A message will warn you if your route includes unverified streets. Exercise additional caution when driving in unverified areas.

The database does not include, analyse, process, consider, or reflect any of the following categories of information:

• Neighbourhood quality or safety

• Population density

• Availability or proximity of law enforcement

• Emergency, rescue, medical, or other assistance

• Construction work, zones, or hazards

• Road and lane closures

• Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)

• Road slope or grade

• Bridge height, width, weight, or other limits

• Traffic facilities safety

• Special events

• Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

We assume no liability for any incident that may result from an error in the programme, or from changed conditions not noted above.

Reference Information

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
  ➋ **Troubleshooting** P. 194
  There are also FAQs available online at *www.acuranavi.ca*.
- For questions regarding *Bluetooth*® HandsFreeLink®:
  ➋ *Bluetooth*® **HandsFreeLink®** P. 162
- For reporting issues with the database or places/landmarks:
  ➋ **Reporting Errors** P. 210
- Call Acura Client Relations.
  ➋ **Acura Client Relations Contact Information** P. 210

Reporting Errors

You can help to improve database accuracy by reporting any errors you encounter.

- Report errors in highways and main "verified" roads shown in black on the map at *http://mapreporter.navteq.com/dur-web-external/*.
- Please do not report errors in purple "unverified" roads. Maps for these areas are provided for reference only.
  ➋ **Unverified Area Routing** P. 50
- Please do not report errors in places/landmarks, such as changes in business names. Information about points of interest are constantly being updated. An updated database is available for purchase, usually in the fall of each year.
  ➋ **Obtaining a Navigation Update Data** P. 211
- For vehicle position icon errors, screen error messages, or other GPS-related errors:
  ➋ **Troubleshooting** P. 194
  ➋ **System Limitations** P. 208

Acura Client Relations Contact Information

Acura Navi

Acura Client Relations

Honda Canada Inc.

Telephone: (888) 9-ACURA-9
8:00 am to 7:30 pm Monday to Friday (Eastern time)

180 Honda Boulevard Markham, ON L6C 0H9

E-Mail: acura_cr@ch.honda.com

Visiting a Dealer

If you have a question that you cannot resolve using the available help resources, you can consult a dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service technician can refer the issue to the factory so that a solution can be found. Be patient, the service technician may be unfamiliar with your specific issue.

Map Coverage

The navigation system provides map coverage for the United States, Canada, Puerto Rico, and Mexico. The map coverage consists of accurately mapped (verified) metropolitan areas and a less accurate (unverified) rural database. Note that unverified areas are constantly being reviewed and converted to verified areas each year.

Map coverage update information is available from Acura Client Relations or online at *www.acuranavi.ca*.

To find navigation system update information:

1. Visit *www.acuranavi.ca*.

2. Enter your vehicle model and model year.

3. Click Map Coverage to display a list of verified coverage areas on the most recent update.

4. Click Map Coverage Details to display a PDF document with a full listing of all coverage areas.

▶ Adobe® Reader® is required for viewing and printing the Portable Document Format (PDF) documents. To download the latest version of Adobe Reader, visit *http://get.adobe.com/reader/*.

Obtaining a Navigation Update Data

Acura is continually expanding the scope of the navigation system. Navigation system software upgrades may be made available periodically, usually in the fall of each year.

To purchase an updated data file:

1. Obtain your vehicle's VIN number and the System/Device Information.

2. Order online at *www.acuranavi.ca*.

Update data is not available from a dealer. However, the dealer may assist you in obtaining an update data for you out of courtesy. There is no programme for free updates.

User Agreements

■Navigation System User Agreement

In using this HDD "Satellite Linked Navigation System" (the "HDD"), which includes HONDA MOTOR CO., LTD. software, PIONNER CORPORATION software, and NAVTEQ database contents (hereinafter referred to as "Licensers"), you are bound by the terms and conditions set forth below. By using your copy of the HDD, you have expressed your Agreement to the terms and conditions of this Agreement. You should, therefore, make sure that you read and understand the following provisions. If for any reason you do not wish to be bound by the terms of this Agreement, please return the HDD to your dealer.

- The HDD may not be copied, duplicated, or otherwise modified, in whole or in part, without the express written permission of the Licensers.
- The HDD may not be transferred or sublicensed to any third party for profit, rent or loan, or licenced for reuse in any manner.

- The HDD may not be decompiled, reverse engineered or otherwise disassembled, in whole or in part.
- The HDD may not be used in a network or by any other manner of simultaneous use in multiple systems.
- The HDD is intended solely for personal use (or internal use where the end-user is a business) by the consumer. The HDD is not to be used for commercial purposes.
- The Licensers do not guarantee to the client that the functions included in the HDD meet the specific objectives of the user.
- Licenser shall not be responsible for any damages caused by the use of the HDD to the actual user or to any third party.
- The warranty on the HDD shall not extend to an exchange or refund due to misspelling, omission of letters, or any other cosmetic discrepancy in the contents of the HDD.
- The right to use the HDD shall expire either when the user destroys the HDD or software, or when any of the terms of this Agreement are violated and the Licensers exercise the option to revoke the license to use the HDD or software.

Reference Information

• The terms and conditions hereof apply to all subsequent users and owners as well as to the original purchaser.

• The logos of oil companies, hotels, convenience stores, and other businesses are displayed for your information and convenience, and in no way imply any sponsorship, approval or endorsement of these companies, or their products. The logos are trademarks of their respective owners.

• The marks of companies displayed by this product to indicate business locations are the marks of their respective owners.

• The use of such marks in this product does not imply any sponsorship, approval, or endorsement by such companies of this product.

The user shall indemnify and save harmless the Licensers, and their officers, employees and agents, from and against any claim, demand or action, irrespective of the nature of the cause of the claim, demand or action, alleging loss, costs, expense, damages or injuries (including injuries resulting in death) arising out of the use or possession of the HDD or software.

Use, duplication, or disclosure of this HDD by or on behalf of the United States government is subject to "Restricted Rights" as set forth at FAR 52.227-14, -19 or DFARS 252.227-7013, as applicable. ■ Gracenote Music Recognition Service (CDDB)

Music recognition technology and related data are provided by Gracenote®. Gracenote is the industry standard in music recognition technology and related content delivery. For more information, visit *www.gracenote.com*.

When music is recorded to the HDD from a CD, information such as the recording artist and track name are retrieved from the Gracenote Database and displayed (when available). Gracenote may not contain information for all albums.

Gracenote is an internet-based music recognition service that allows artist, album, and track information from CDs to display on the HDD.

Gracenote users are allowed 4 free updates a year. More information about Gracenote, its features, and downloads

are available at *www.acuranavi.com* (in U.S.) or *www.acuranavi.ca* (in Canada). CD and music-related data from Gracenote, Inc., copyright © 2000 to present Gracenote. Gracenote Software, copyright © 2000 to present Gracenote. One or more patents owned by Gracenote apply to this product and service. See the Gracenote website for a non-exhaustive list of applicable Gracenote patents. Gracenote, CDDB, MusicID, MediaVOCS, the Gracenote logo and logotype, and the "Powered by Gracenote" logo are either registered trademarks or trademarks of Gracenote in the United States and/or other countries.

■ **Gracenote® END USER LICENSE AGREEMENT**

This application or device contains software from Gracenote, Inc. of Emeryville, California ("Gracenote"). The software from Gracenote (the "Gracenote Software") enables this application to perform disc and/or file identification and obtain music- related information, including name, artist, track, and title information ("Gracenote Data") from online servers or embedded databases

(collectively, "Gracenote Servers") and to perform other functions. You may use Gracenote Data only by means of the intended End-User functions or this application or device.

You agree that you will use Gracenote Data, the Gracenote Software, and Gracenote Servers for your own personal non-commercial use only.

You agree not to assign, copy, transfer, or transmit the Gracenote Software or any Gracenote Data to any third party.

YOU AGREE NOT TO USE OR EXPLOIT GRACENOTE DATA, THE GRACENOTE SOFTWARE, OR GRACENOTE SERVERS, EXCEPT AS EXPRESSLY PERMITTED HEREIN.

You agree that your non-exclusive license to use the Gracenote Data, the Gracenote Software, and Gracenote Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the Gracenote Data, the Gracenote Software, and Gracenote Servers.

Gracenote reserves all rights in Gracenote Data, the Gracenote Software, and the Gracenote Servers, including all ownership rights. Under no circumstances will Gracenote become liable for any payment to you for any information that you provide. You agree that Gracenote, Inc. may enforce its rights under this Agreement against you directly in its own name.

The Gracenote service uses a unique identifier to track queries for statistical purposes. The purpose of a randomly assigned numeric identifier is to allow the Gracenote service to count queries without knowing anything about who you are. For more information, see the web page for the Gracenote Privacy Policy for the Gracenote service.

The Gracenote Software and each item of Gracenote Data are licensed to you "AS IS."

Gracenote makes no representations or warranties, express or implied, regarding the accuracy of any Gracenote Data from in the Gracenote Servers. Gracenote reserves the right to delete data from the Gracenote Servers or to change data categories for any cause that Gracenote

Reference Information

deems sufficient. No warranty is made that the Gracenote Software or Gracenote Servers are error-free or that functioning of Gracenote Software or Gracenote Servers will be uninterrupted.

Gracenote is not obligated to provide you with new enhanced or additional data types or categories that Gracenote may provide in the future and is free to discontinue its services at any time.

GRACENOTE DISCLAIMS ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT. GRACENOTE DOES NOT WARRANT THE RESULTS THAT WILL BE OBTAINED BY YOUR USE OF THE GRACENOTE SOFTWARE OR ANY GRACENOTE SERVER. As required by the FCC

This device complies with Part 15 of FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

This device complies with RSS-310 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference.

Reference Information

Voice Commands

Global Commands

The system accepts these commands on any screen.

Help (displays commands for current screen)
Display map (equivalent to MAP)
Display destination (equivalent to DEST/ROUTE)
Display information (equivalent to INFO)
Display audio (equivalent to AUDIO)
Display phone (equivalent to PHONE)
Back (returns to previous screen)
Cancel (equivalent to CANCEL)
What is today's date?
What time is it?

Navigation Commands

The system accepts these commands on a map/guidance screen.

■ General Commands

Display destination (if en route, displays the Route screen)
Display navigation (if en route, displays the Route screen)
Display map
Display map guide (when en route, shows the next guidance point)
Display information (or Information)
Display audio
Display phone
Cancel
Backward (or Back)
What time is it?
What is today's date?
Help (reads list of General and Map Display Commands)

■ Map Display Commands

Display current location (shows current latitude, longitude, and elevation)
Display/Hide (specify icon type):
  ATM
  gas station
  restaurant
  ZAGAT restaurant
  post office
  grocery store
  lodging (hotel, motel)
  parking garage
  parking lot
  school
  hospital
  highway exit information
Go home 1
Go home 2

■Map Scale Commands

Register the current location (stores
   current location in the Address Book)
Display north up
Display heading up
Display zoom in
Display zoom out
Display (specify scale):
   80 m (1/20 mile) scale
   200 m (1/8 mile) scale
   400 m (1/4 mile) scale
   800 m (1/2 mile) scale
   1600 m (1 mile) scale
   3 km (2 mile) scale
   8 km (5 mile) scale
   24 km (15 mile)scale
   80 km (50 mile) scale
   240 km (150 mile) scale
   560 km (350 mile) scale
   1600 km (1000 mile) scale
Max zoom in
Max zoom out

■ Route Commands

The system accepts these commands when a route is set.
How long to the destination?*
How far to the destination?*
Display destination map
Display entire route

* These commands are not available if you scroll through the map while en route to a destination.

Climate Control Commands

The system accepts these commands on most screens.
Climate control automatic (maintains selected temperature)
Climate control on*
Climate control off*
Air conditioner on*
Air conditioner off*
Climate control defrost on*
Climate control defrost off*
Rear defrost on*
Rear defrost off*
Climate control fresh air

Voice Commands

220

Climate control recirculate
Climate control sync on*
Climate control sync off*
Climate control vent
Climate control bi-level (vent and floor)
Climate control floor
Climate control floor and defrost
Fan speed up
Fan speed down
Fan speed # (#: 1 to 7)
Driver temperature # degrees (#: 15 to 29 °C)
Passenger temperature # degrees (#: 15 to 29 °C)
Driver temperature up
Driver temperature down
Passenger temperature up
Passenger temperature down
Driver temperature max hot
Driver temperature max cold
Passenger temperature max hot
Passenger temperature max cold

* These commands toggle the function on and off, so the command may not match your intended action.

Audio Commands

The system accepts these commands on most screens.

■Radio Commands

Audio on*
Audio off*
Radio on*
Radio off*
Radio select FM1
Radio select FM2
Radio select AM
Radio tune to # FM (#: frequency, e.g., 95.5)
Radio tune to # AM (#: frequency, e.g., 1020)
Radio seek up
Radio seek down
Radio next station
Radio preset # (#: 1 to 6)
Radio FM preset # (#: 1 to 6)
Radio FM1 preset # (#: 1 to 6)
Radio FM2 preset # (#: 1 to 6)
Radio AM preset # (#: 1 to 6)
Radio auto select*
Radio scan*

Radio select XM1
Radio select XM2
XM channel # (#: 0 to 255)
XM channel up
XM channel down
XM category up
XM category down
XM preset # (#: 1 to 6)
XM1 preset # (#: 1 to 6)
XM2 preset # (#: 1 to 6)
XM scan*
XM category scan*
XM channel scan*
XM category mode
XM channel mode

* These commands toggle the function on and off, so the command may not match your intended action.

NOTE:
Radio volume levels cannot be controlled using voice control.

Voice Commands

■Disc Commands

DISC play
DISC play track # (#: 1 to 30)
DISC skip forward
DISC skip back
DISC track random*
DISC track repeat*
DISC track scan*
DISC folder up
DISC folder down
DISC folder random*
DISC folder repeat*
DISC folder scan*
DISC normal play (cancels random, repeat, or scan play mode, resumes normal play mode)

* These commands toggle the function on and off, so the command may not match your intended action.

■HDD Commands

HDD play
HDD play track # (#: 1-30)
HDD skip forward
HDD skip back
HDD album up*1
HDD album down*1
HDD genre up*1
HDD genre down*1
HDD artist up*1
HDD artist down*1
HDD track up
HDD track down
HDD playlist up*1
HDD playlist down*1
HDD track repeat*2
HDD track scan*1
HDD track random*2
HDD normal play (cancels random, repeat, or scan play mode, resumes normal play mode)

*1. These commands are available only in the corresponding playback mode. For example, "Artist" commands are available only in "Artist" mode.

*2. These commands toggle the function on and off, so the command may not match your intended action.

■USB Commands

USB play
USB play track # (#: 1 to 30)
USB skip forward
USB skip back
USB track random*
USB track repeat*
USB track scan*
USB folder up
USB folder down
USB folder random*
USB folder repeat*
USB folder scan*
USB normal play (cancels random, repeat, or scan play mode, resumes normal play mode)

* These commands toggle the function on and off, so the command may not match your intended action.

Voice Commands

■iPod® Commands

iPod play
iPod play track # (#: 1-30)
iPod skip forward
iPod skip back
iPod track shuffle*
iPod album shuffle*
iPod track repeat*
iPod normal play (cancels repeat or shuffle play mode, resumes normal play mode)

* These commands toggle the function on and off, so the command may not match your intended action.

■*Bluetooth*® Audio Commands

Bluetooth audio play
Bluetooth audio skip forward
Bluetooth audio skip back
Bluetooth audio pause
Bluetooth audio resume
Bluetooth audio group up
Bluetooth audio group down

NOTE:
Bluetooth® Audio commands may not work on some phones or Bluetooth® audio devices.

■AUX Commands

AUX play (or Auxiliary play)

■Song By Voice™ Commands

iPod search (activates Song By Voice™)
HDD search (activates Song By Voice™)
List album (specify album)
List artist (specify artist)
List composer (specify composer)
List genre (specify genre)
List playlist (specify playlist)
Play album (specify album)
Play artist (specify artist)
Play composer (specify composer)
Play genre (specify genre)
Play playlist (specify playlist)
Play song (specify song)
What/Who am I listening to?
Who is this?
What's playing?
Who's playing?
What album is this?

NOTE:
Song By Voice™ commands are available for tracks stored on the HDD or iPod®.

Voice Commands

Cellular Phone Commands

The system accepts these commands only on the Cellular Phone screen.

Redial
Call history
Phone book
Dial
Text message
More speed dial
Phone setup

These commands can be made from any screen.

Dial/call by number
Dial/call by voice tag

■Text Message Commands

The system accepts these commands on the Inbox Message screen.

Reply
Call
Send
Full message
Next message
Previous message
Read*
Cancel*

* These commands are accepted when a text message is received.

Main Setup Screen Commands

The system accepts these commands on the Main Setup screen.

Brightness up
Brightness down
Brightness minimum/min.
Brightness maximum/max.
Contrast up
Contrast down
Contrast minimum/min.
Contrast maximum/max.
Black level up
Black level down
Black level minimum/min.
Black level maximum/max.
Volume up
Volume down
Volume minimum/min.
Volume maximum/max.
Volume off
Interface dial feedback off
Interface dial feedback auto
Interface dial feedback on

On-Screen Commands

The system accepts these commands on any screen. There are over 100 on-screen commands. Say what is written on the screen to activate that selection. For lists, you can say the list item number to select that item.

Next (or Down)
Previous (or Up)
Return
OK (excluding Startup Confirmation screen)
Delete

Spelling Assistance

The voice control system can also recognize phonetic alphabet input for numbers, letters, accented letters, punctuation marks, and symbols.

NOTE:
When selecting letters using the voice control system, a confirmation box may pop up to confirm the entry.
